Pioneer Aviators of the World Hart Matthews, 2003 Most people recognize brothers and bicycle mechanics Wilbur and Orville Wright as the first in flight and know that in 1903 on the blustery sand dunes of Kitty Hawk North Carolina they made history with a flying machine of their own invention But few other people know that the next aviator after the Wright brothers a Brazilian flew almost three years later and was nevertheless widely credited as being the first in flight

Or that a world famous escapologist a Hungarian made the first flights in Australia but afterwards never flew again Or that in Spain the first public display of a flying machine led to religious riots The first pilots from each of a hundred countries have their stories told in this work A brief biography and description of his or her attempts to fly are provided for each early aviator except in a very few cases where facts are hard to find For purposes of this book a flight is defined as that made by a heavier than air machine capable of taking off from ground level carrying a pilot who controls to some degree the ascent descent and path of the machine To be called successful the flight must be sustained past the point to which the machine s take off momentum would normally carry it through the air
