Veiled Truths Rujeko Chahuruva,2021-03-06 This book explains the veiled truths that are in the book of Genesis Jesus Christ His Church and futures events are all hidden and shown in types and shadows in the book of Genesis as well as other Old Testament Books Types and shadows are prophetic

foretellings of future events They are like a pre cursor that can help to illuminate a concept Many folks of the Old Testament foreshadow the life of Jesus Christ in amazing ways The Bronze Serpent pointed to the Cross of Christ Noah s ark people like Noah Melchizedek who was a king priest and Isaac the only begotten son of Abraham pointed to Christ The events of the Old Testament like the Exodus feasts e t c actually happened to foreshadow the things that were to happen they were not myths or stories People like David Moses Noah and many others are not mere ideas they existed This book explores the different types and shadows found in the book of Genesis Types and shadows are interesting but should be consistent with the rest of the Bible and should never change the meaning of scripture

critical and linguistic methods the author seeks to understand the role of the toledot formula often translated These are the generations of Name in shaping the book of Genesis and the Pentateuch as a whole An examination of the formula uncovers that it functions primarily as a heading to major sections of text and draws the readers attention to focus on an ever narrower range of characters By starting from the perspective of the surface structure of the text and addressing questions that investigation raises the study is able to uncover and resolve a number of tensions within the text as well as provide insights into a number of other questions surrounding the toledot headings and the organization of the structure of the Pentateuch
