Wildfire A Reader:

The Wildfire Reader George Wuerthner, 2006-08-04 The Wildfire Reader presents in an affordable paperback edition the essays included in Wildfire offering a concise overview of fire landscapes and the past century of forest policy that has affected them

Wildfire Alianor True, 2013-04-10 During the summer of 2000 Americans from coast to coast witnessed the worst fire season in recorded history Daily news reports brought dramatic images of vast swaths of land going up in smoke from the mountains of Montana and Wyoming to the scrublands of Texas to Los Alamos New Mexico where a controlled burn gone awry threatened forests homes and even our nation s nuclear secrets As they have for centuries wildfires captured our attention and our imagination reminding us of the power of the natural forces that shape our world In Wildfire A Reader nature writer and wildland firefighter Alianor True gathers together for the first time some of the finest stories and essays ever written about wildfire in America From Mark Twain to Norman Maclean to Edward Abbey writers featured here depict and record wildfires with remarkable depth and clarity An ecological perspective is well represented through the works of John Muir Aldo Leopold and John McPhee Ed Engle Louise Wagenknecht and Gretchen Yost firefighters from the front lines give us exciting first person perspectives reliving their on the ground encounters with forest fires The works gathered in Wildfire not only explore the sensory and aesthetic aspects of fire but also highlight how much attitudes have changed over the past 200 years From Native Americans who used fire as a tool to early Americans who viewed it as a frightening and destructive force to Aldo Leopold and other conservationists whose ideas caused us to rethink the value and role of fire this rich collection is organized around those shifts in thinking Capturing the fury and the heat of a raging inferno or the quiet emergence of wildflowers sprouting from ashes the writings included in Wildfire represent a vital and compelling addition to the nature writing and natural history bookshelf

Climate anxiety is a real concern for many kids especially those who have experienced wildfires firsthand and this thoughtful comic will surely ring powerfully true Booklist starred review In the wake of a fire that s destroyed her home a middle schooler is eager to turn her grief into action in this sensitive graphic novel resource about what makes wildfires happen and how to inspire change Julianna loved her life in rural Oregon She loved taking care of her farm animals and being part of her local 4H club But then the unthinkable happened a wildfire destroyed her family s home In the aftermath her family relocated to Portland Oregon where Julianna hopes to put everything behind her Believing the fire to be the result of kids playing with fireworks she certainly isn t interested when her parents and younger sister start getting involved in the growing climate change protests All she wants to do is move on but that becomes near impossible when Carson an old friend from her hometown who may have had a hand in starting the wildfire is suddenly back in her life Julianna can t seem to catch a break but when two new friends invite her to join their school s conservation club she learns that maybe she can turn her anger into something powerful Emotional and inspiring Wildfire shows readers that healing from tragedy can take many forms and demonstrates what it means to take action in the face of climate change and how that action can be different for each of us
