50 Space Missions that Changed the World John A. Read, 2020-11-17 Since the first spacecraft launched in 1957 there have been many ground breaking missions that have expanded our knowledge of the solar system The 50 featured in this collection include Voyager s Grand Tour Apollo 8 and the first crewed mission to the Moon the first woman in space and the first communication satellite that brought live television to the world You can also find information on spy satellites space tourism and climate change In the early days of space exploration the focus was on military dominance Today most missions require the collaboration of several different countries and there s a broader range of research This is an exciting time we are living in Space history is unfolding right before our eyes *Unmanned Space Missions* Britannica Educational Publishing, 2009-10-01 Satellites and robotic spacecraft have long travelled where humankind cannot or dare not go By delving into the pages of this book readers will learn about the technology people and organizations that have made fruitful

unmanned space missions a reality *Faster, Better, Cheaper* Howard E. McCurdy, 2003-04-01 This excellent summary of an important part of NASA's history is recommended for all readers Choice In Faster Better Cheaper Low Cost Innovation in the U S Space Program Howard E McCurdy examines NASA's recent efforts to save money while improving mission frequency and performance McCurdy details sixteen missions undertaken as the twentieth century drew to a close including an orbit of the moon deployment of three space telescopes four Earth orbiting satellites two rendezvous with comets and asteroids and a test of an ion propulsion engine which cost less than the sum traditionally spent on a single conventionally planned planetary mission He shows how these missions employed smaller spacecraft and cheaper technology to undertake less complex and more specific tasks in outer space While the technological innovation and space exploration approach that McCurdy describes is still controversial the historical perspective on its disappointments and triumphs points to ways of developing faster better and cheaper as a management manifesto Readers interested in either the management or economics of complex organizations will find a wealth of material in this well written exposition Fans of space travel like the author himself will also enjoy the behind the scenes look at NASA's operation Enterprise and Society *Shattered Dreams* Colin Burgess, 2019-05-01 Shattered Dreams delves into the personal stories and recollections of several men and women who were in line to fly a specific or future space mission but lost that opportunity due to personal reasons mission cancellations or even tragedies While some of the subjects are familiar names in spaceflight history the accounts of others are told here for the first time Colin Burgess features spaceflight candidates from the United States Russia Indonesia Australia and Great Britain Shattered Dreams brings to new life such episodes and upheavals in spaceflight history as the saga of the three Apollo missions that were cancelled due to budgetary constraints and never flew NASA astronaut Patricia Hilliard Robertson who died of burn injuries after her airplane crashed before she had a chance to fly into space and a female cosmonaut who might have become the first journalist to fly in space Another NASA astronaut was preparing to fly an Apollo mission before he was diagnosed with a disqualifying illness There is also the amazing story of the pilot who could have bailed out of his damaged aircraft but held off while heroically avoiding a populated area and later applied to NASA to fulfill his cherished dream of becoming an astronaut despite having lost both legs in the accident These are the incredibly human stories of competitive realists fired with an unquenchable passion Their accounts reveal in their own words and those of others close to them how their shared ambition would go awry through personal accidents illness the Challenger disaster death or other circumstances *Western Aerospace*, 1959 **Missions** Howard Benjamin Grose, 1924 **Human Health and Performance Risks of Space Exploration Missions** Jancy C. McPhee, John B. Charles, United States. National Aeronautics and Space Administration, 2009 [Incredible Stories from Space](#) Nancy Atkinson, 2016-12-20 Experience the Amazing Unmanned Journeys to Explore the Universe In Incredible Stories from Space veteran space journalist Nancy Atkinson shares compelling insights from over 35 NASA scientists and engineers taking readers behind the scenes of the unmanned missions
