The Available Mind Carol R. Murphy, 1974-01 **The Mind as a Scientific Object** Christina E. Erneling, David Martel Johnson, 2005 This book argues that all the cognitive science disciplines are not equally able to provide answers to ontological questions about the mind but rather that only neurophysiology and cultural psychology are suited to answer these questions **BOOK JACKET** *Attending to the Literary* Alan Singer, 2023-08-23 Attending to the Literary The Distinctiveness of Literature is a foray into current debates about the nature of the literary What is literary Is literarity a thing Are there still aesthetic standards of taste Is the category of literary aesthetics an obstacle to understanding the uses of literature What does it mean to count the reading of literature as an experience in its own right What would be the deficits to human experience without literature Attending to the Literary addresses all of these questions with a view to challenging the notion of literarity as merely representative of experience On the contrary Alan Singer shows how literarity is an enacting of experience Through close readings of an eclectic repertoire of literary sentences culled from the genres of fiction poetry and drama Singer demonstrates how syntax stages human capacities for attending ever more consequentially to the world of practical experience These stagings of forms of attention involve readers in the drama of reason giving and expand the possibilities of rational imagination Attending to the Literary speaks to a broad audience of readers for whom the question Does literature matter remains an urgent intellectual challenge **Restoring Humane Values to Medicine** John Miles Little, 2003 Does reading poetry make you a better clinician Can euthanasia be understood in terms of the meaning of a life What is the moral and existential significance of life threatening experiences Australian surgeon poet philosopher and humanist Miles Little addresses these and other fascinating questions in this collection of papers Miles Little is one of the most original and engaging voices in contemporary medical ethics and philosophy He ranges across the sciences and the humanities creating hybrid fields of inquiry ethonomics interrogating orthodoxies and engaging different fields of human knowledge and experience The papers in this collection were chosen by his readers who also engage here with Miles Little s work in a short commentary that follows each paper The range of the commentators reflects the breadth of Little s appeal and influence academics and clinicians philosophers and ethicists novelists public health practitioners and cancer survivors each reflects agrees or disagrees Like Little s work itself this Reader is an open and unfolding dialogue that includes many different perspectives Commentators include Murray Bail Robin Downie Nancy Dubler Stan Goulston Jill Gordon Paul Komesaroff Steve Leeder Paul McNeill Gavin Mooney and Bernadette Tobin *Your Magic Power to be Rich!* Napoleon Hill, 2007-05-31 The ultimate all in one prosperity bible featuring updated editions of the greatest works by the champion wealth builder of all time Napoleon Hill The timeless personal success writings of Napoleon Hill have inspired millions of readers to reach for and achieve their dreams since his debut book appeared in 1928 Now three of Hill s most dynamic titles are available together for the first time revised and updated in this convenient omnibus edition Think and Grow Rich one of
