1 Energy Master Plan Continued Research

1.1 Introduction

The New Jersey (NJ) and Governor's Office seek to make additional research efforts into research necessary for the master plan. It is possible there continues to be research needed in the areas of:

[Redacted]

The following table lists the research to be updated starting in March 2025. The work scope includes research needed that is not within the period (November 2024 and March 2025).

1.1 Task 1: Update New Jersey EDP Progress Report to Reflect Progress Through End of 2024

ED will complete a final review of policy and implementation progress made since the start of research was completed in October 2024. This will involve the EDP working meeting any additional progress made through the end of 2024. Based upon the findings of this final review, ED will submit the progress review and the progress report update of the EDP report.

1.2 Task 2: Model Additional Supply Side Resource Scenarios

The additional modeling activities include the following: address the construction and operating life cycle costs of existing capacity, model new capacity, model transmission, and forecast the system.

1.2 Task 3: Determine Modeling Impacts of New Scenarios

The final goal has been achieved through a number of modeling scenarios of the New Jersey Energy Master Plan. The modeling scenarios include the following: model new capacity, model transmission, and forecast the system. The modeling scenarios include the following: address the construction and operating life cycle costs of existing capacity, model new capacity, model transmission, and forecast the system.

1.4 Task 4: Update Customer Cost, Revenue Requirement Models, and Cost Models with New Scenarios

ED will update the customer cost, demand, distribution models, and revenue requirement with the additional New Jersey Energy Master Plan.

[Redacted]

ED will also update the air quality modeling along with the New Jersey EDP modeling, as shown previously in the research update report.

1.5 Task 5: Coordinate and Share Data with Ongoing New Jersey Research Efforts

ED will continue to coordinate with the other effort conducted by the State's existing air modeling (NJDEP's Air Quality Modeling, Air Quality Planning, Air Quality Modeling, Air Quality Modeling, Air Quality Modeling, and Policy of the Air Quality Modeling). ED will share modeling outputs with the other effort and will support data to the participants requested by ED, including the air quality modeling for the year in 10 year and 20 year air quality, which aligns with the air quality modeling for the first commitment for regional coordination with external modeling.

Task 6: Update EDP Report and Final Strategy

Based on findings of the research, ED will update the research report.

The final EDP report:

The final report will be used to inform additional policy review, model and implementation methods and documentation.

For the future scenarios, ED will update modeling updates to coordinate findings to the research and modeling changes based on the policy modeling strategy from the research.

ED will also coordinate modeling findings with the public review of the EDP. The findings will be presented to the public through the web and other means, and will be used to inform the final report.
