Understanding Peacekeeping:

Understanding Peacekeeping Alex J. Bellamy, Paul D. Williams, Stuart Griffin, 2010-03-29 Peace operations are now a principal tool for managing armed conflict and building world peace. The fully revised, expanded and updated second edition of Understanding Peacekeeping provides a comprehensive and up-to-date introduction to the theory, practice and politics of contemporary peace operations. Drawing on more than twenty-five historical and contemporary case studies, this book evaluates the changing characteristics of the contemporary environment in which peacekeepers operate, what role peace operations play in wider processes of global politics, the growing impact of non-state actors and the major challenges facing today's peacekeepers. All the chapters have been revised and expanded and seven new chapters have been added. Part 1 summarizes the central concepts and issues related to peace operations. It includes a new discussion of the theories of peace operations and analysis of the emerging norm of responsibility to protect. Part 2 charts the historical development of peacekeeping from 1945 and offers a new chapter on peace operations in the twenty-first century. In part 3, separate chapters analyse seven different types of peace operations: preventive deployments, traditional peacekeeping, assisting transition, transitional administrations, wider peacekeeping, peace enforcement and peace support operations. Part 4 looks forward and examines the central challenges facing today's peacekeepers, namely the regionalization of peace operations, the privatization of security, civilian protection, policing and gender issues. This second edition of Understanding Peacekeeping will be essential reading for students and scholars of peace and conflict studies, security studies and international relations. Part 1 examines concepts and issues related to peacekeeping in global politics. Part 2 charts the historical development of peacekeeping from 1945 to the present. In Part 3, separate chapters are devoted to different types of peacekeeping operations: traditional peacekeeping, managing transition, wider peacekeeping, peace enforcement and peace support operations. Part 4 looks forward and examines developments in global politics that are presenting serious challenges to the concept and practice of peacekeeping, namely globalization, the privatization of security, preventing violent conflict and the establishment of protectorates. students and scholars of peace and conflict studies security studies and international relations Understanding Peacekeeping Alex J. Bellamy,2004 **Peace Operations and Global Order** Alex J. Bellamy,Paul Williams,2005 Peacekeeping in Global Politics investigates the changing role of peacekeeping and competing perspectives about what that role should be It begins by addressing broad issues connected with the transition from a Westphalian to post Westphalian international society the ethical and legal dilemmas provoked by armed intervention and the alternative ways of conceptualising the role that peacekeeping plays It goes on to critically chart the development of traditional peacekeeping before outlining how the role of force in peacekeeping operations has changed and the close links between peacekeeping conflict prevention and conflict resolution The final part of the volume focuses specifically on globalization and the effects that this has had on peacekeeping practices In particular it focuses on the changing conflict environment the growing tendency towards subcontracting peacekeeping duties and the development of regional peacekeeping capabilities Overall this volume makes two contributions to the way we think about peacekeeping first it demonstrates that the theory and practice of peacekeeping is embedded in global politics and second it shows that there an on going debate about what peacekeeping is for How Peace Operations Work Jeni Whalan,2013-12-12 This book proposes a new approach to studying the effectiveness of peace operations It asks not whether peace operations work or why but how when a peace operation achieves its goals what causal processes are at work By discovering how peace operations work this new approach offers five distinctive contributions First it studies peace operations through a local lens examining their interactions with actors in host societies rather than their genesis in the politics and institutions of the international realm In doing so it highlights the centrality of local compliance and cooperation to a peace operation s effectiveness Second the book structures a framework for explaining how peace operations can shape the behaviour of local actors in order to obtain greater cooperation That framework distinguishes three dimensions of a peace operation s power coercion inducement and legitimacy and illuminates their effects The third contribution is to highlight the contribution of local legitimacy to a peace operation s effectiveness and identify the means by which an operation can be locally legitimized Fourth the new power legitimacy framework is applied to study two peace operations in depth the United Nations Transitional Authority in Cambodia UNTAC and the Regional Assistance Mission to Solomon Islands RAMSI Finally the book concludes by examining the implications of this new approach for practice and identifying a set of policy reforms to help peace operations work better The book argues that peace operations work by influencing the decisions and behaviour of diverse local actors in host societies Peace operations work better that is achieve more of their objectives at lower cost when they receive high quality local cooperation It concludes that peace operations are more likely to attain such cooperation when they are perceived locally to be legitimate *The Oxford Handbook of International Organizations* Jacob Katz Cogan,Ian Hurd,Ian Johnstone,2016-11-24 Virtually every important question of public policy today involves an international organization From trade to intellectual property to health policy and

Peacekeepers and Their Wives David R. Segal,Mady Wechsler Segal,1993-10-30 David and Mady Segal analyze the adaptation of American soldiers assigned to the Multinational Force and Observers MFO in the Sinai Desert in support of the Camp David Accords in the context of the evolution of multinational peacekeeping forces as mechanisms for achieving international security The reactions of soldiers and their wives to the peacekeeping assignment are considered from the perspective of the social construction of reality in which the role of the military has been defined as war fighting The press has ignored peacekeeping until very recently and it falls to military organizations to soldiers and their families to make sense of the mission Lessons learned from the Sinai MFO experience should be used to help U S troops better prepare for their increasing role in multinational peacekeeping

Crafting the State Naazneen Haider Barma, 2007 *Intervention and State-Building in the Pacific* Greg Fry, Tarcisius Tara Kabutaulaka, 2008-10-15 *Intervention and State Building in the Pacific* explores state building intervention in weak war torn or failing states through a critical examination of a new model that has recently emerged in relation to the Pacific arc of crisis Initiated by the Australian Government in 2003 this cooperative intervention doctrine built on declared principles of partnership and respect for sovereignty seems to offer a legitimate way to engage in state building intervention Drawing on a group of distinguished Pacific specialists this book mounts a critique of these claims showing how international legitimacy does not automatically translate into political legitimacy among those in the affected societies and how the attempt to legitimize the intervention internationally may actually work against such legitimacy in the recipient state *NATO Review* ,1996
