Gaudet, 2025-04 Eight Theories of Justice presents ideas of justice in political philosophy and theological ethics utilitarianism liberalism libertarianism communitarianism Catholic social teaching Christian realism liberation theology and womanism Each chapter introduces the major elements of a theory and an assessment of its value for living justly *Richard Nixon and the Rise of Affirmative Action* Kevin Yuill, 2006-06-27 Nixon s efforts in moving the focus of U S race relations from reform to indemnifying damages Yuill argues at least equal his contributions to the origins of affirmative action through policy innovations Jacket *Contemporary Korean Political Thought in Search of a Post-Eurocentric Approach* Jung In Kang, 2014-11-20 This book is a collection of essays written by Korean political theorists addressing the study of contemporary Korean political thought on the premise that such study should be carried out with a post Eurocentric approach The negative effects brought about by the domination of Western centrism are pervasive in academic disciplines as well as in everyday life of South Korea This book outlines three strategic approaches to combating Western centrism 1 theorizing contemporary Korean politics from a Korean perspective 2 the Koreanization of Western political thought and 3 modernizing traditional East Asian political thought These essays examine

and explore the validity of the three strategic approaches with the objective of coping with Western centrism in Korean political theory These contributing authors share a concern about Western centrism but approach it from different directions and at different layers

Philosophical Approaches to Poverty, Inequality and the Idea of Wellbeing Francesca Malloggi, 2017-12-22 Master s Thesis from the year 2017 in the subject Philosophy Practical Ethics Aesthetics Culture Nature Right grade 8 University of Amsterdam language English abstract There are many definitions of poverty in a legal and philosophical sense coming from many different institutions such as the UN EU individual countries and from many different philosophers In the following work I will suggest that we should analyze poverty and broaden the meaning together with the way of measuring it especially adopting Amartya Sen s approach For the moment when discussing poverty I will refer to the definition given by A Dictionary of Sociology 2009 in which poverty is a state in which resources usually material but sometimes cultural are lacking Scott and Marshall 2009 I aim at suggesting that my analysis of relative poverty shall be taken into account not only for social and economic policies but also when dealing with issues about absolute poverty because the quality of people s life has to be determined with broader terms when speaking about developed countries indeed as I will show in the course of the thesis because having a full time job can still be related to a deprived situation for the human being and even though the deprivation of the persons can be more or less severe regarding relative and absolute poverty the level of suffering of the human being is still very high and therefore it requires attention and more sensitivity Poverty and inequality are deeply interconnected and they can be broadly defined as the functioning and the outcome of the same system the economic system based on capitalism Poverty is functional for the capitalist system because it serves as lubricants greasing the joints of an otherwise creaky social system Wachtel 1972 pg 17 Poverty plays a functional part within this system as it is about the increased value of the real income of people that fall shortly above the line of the non poor and it works as an illusion of a given state of affairs Also the level of poverty allows the non poor to buy commodities at lower prices and from this point of view we are all served by the existence of poverty Moreover the second function regards the general conditions created by poverty because it ensures that the dirty work Wachtel 1972 will be done such as dangerous precarious underpaid and undignified jobs Poverty allows for the formation of a labor force people who need to work whatever the physical and metaphorical costs are

Six Theories of Justice Karen Lebacqz, 1987-01-01 There may be no more urgent cry today than that of justice and no more frequent accusation than that of injustice But what is meant when these terms are used *Six Theories of Justice* clarifies that question and offers major alternative answers Dr Lebacqz surveys three philosophical approaches to justice John Stuart Mill s utilitarianism the contract system of John Rawls and the entitlement views of Robert Nozick These are followed by analysis of three theological approaches that of the National Conference of Catholic Bishops of Reinhold Niebuhr and of the liberation theologian Jose Porfirio Miranda A comparison of the effectiveness of each approach in providing direction for facing and dealing with contemporary issues and situations adds

to the usefulness of this volume A lucid and well structured introduction to recent thinking in social ethics The Journal of Philosophy ,1979 Social Theory and Practice ,2012 **Book Review Digest** ,1928 **Report of Cases Decided in the Supreme Court of the State of Georgia** Georgia. Supreme Court,1907 Ethics and the Conduct of Business John Raymond Boatright,1997 This comprehensive single author text provides balanced and thorough treatment of the major problem areas of business ethics along with abundant cases to facilitate class discussion *The Cumulative Book Index* ,1977 A world list of books in the English language *The Ends of Human Life* Ezekiel J. Emanuel,1991 Ezekiel Emanuel trained as both a physician and a political theorist rejects the claim that most of today s dilemmas of medical ethics are created by advances in medical technology He maintains that the seemingly endless debates are the inevitable consequence of liberal political values He proposes an alternative ideology a liberal communitarianism that imagines a federation of political communities dedicated to democratic deliberations to guide the formulation of laws and policies *Civic Respect and Political Plural Subjects* Blain Everett Neufeld,2002 **Political Thought Since 1945** Leonard James Tivey,Anthony Wright,1992 Political Thought since 1945provides for a new generation of readers clear and accurate accounts of the views of seven major thinkers Arendt Dahl Habermas Hayek Macpherson Oakeshott and Rawls Each one is placed in a context of comment and criticism In addition an introductory chapter sets out the ideas of other thinkers so that the ambient controversy and conversation is made plain Politics as philosophy as social science and as ideology are all considered The search for a valid form of enquiry is shown to be a continuing preoccupation through the period There was frequent evidence of delayed recognition and influence of political writers and so this reliable guide will provide illumination for years to come Lucid and reliable this guide to recent political thought will be indispensable for the generations of students **The Canadian Charter of Rights and Freedoms After Twenty-five Years** B.
