

Whose views and values?

- This Outcome requires you to look at **all** key views and values in the text. However, not all of these will be supported by the text.
- In *The Boat*, for example, you may come to the conclusion that, in some instances, Le is critiquing the views or values of a particular supporting character. eg.
- Note that a key aspect of the task is to examine “***what the text endorses, challenges and leaves unquestioned***”.

Van Deth, Elinor Scarbrough, 1995-12-14 A decline in religious belief waning class values rising postmaterialism along with green values feminism and postmodernism all these phenomena are indicative of widespread change in value orientations among West European citizens during the last two decades The extent of these changes and their impact on politics are the dual concerns of this volume The first chapters present a simple model of the relationship between value orientations and political participation and follow this up with an account of how value orientations can be identified empirically Subsequent chapters draw on a vast data set from across Europe over the last two decades to track changes in three central value orientations religious secular left right materialism materialism postmaterialism as well as the emergence of feminism postmodernism and green orientations The third part of the volume examines the impact on the three central orientations on political efficacy political trust interest in politics voting and involvement in new social movements The volume concludes with an assessment of the effects of changing value orientations for government in advanced industrial societies A Choice Outstanding Academic Book of the Year Series description This set of five volumes is an exhaustive study of beliefs in government in post war Europe Based upon an extensive collection of survey evidence the results challenge widely argued theories of mass opinion and much scholarly writing about citizen attitudes towards government and politics The series arises from a research project sponsored by the European Science Foundation Reviews of the series The quality of the empirical analysis is consistently high an important collection of empirical studies addressing the debate about the crisis of representation in Europe Journal of Public Policy These volumes contain the work of many of the most important scholars in the field of public opinion in Europe today These

five volumes represent a major contribution to comparative politics especially the study of mass politics The chapters provide a wealth of information about public opinion in contemporary Europe and the relationship between state and society The volumes clearly will be read by all students of European politics Times Educational Supplement The Beliefs in Government series is a monumental achievement It tells us at least everything we want to know about the structure of European public opinion The Good Society Reviews of The Impact of Values The Impact of Values does not disappoint Meticulously organized chapters ensure that this is a volume which can either be read comfortably from cover to cover or dipped into at leisure Democratization a well integrated and informative account of the subject a painstakingly crafted and meticulously researched exercise which will stand as a major reference work for many years to come Political Studies *The Origin of Values* Raymond Boudon,2017-07-12 Values have always been a central topic in both philosophy and the social sciences Statements about what is good or bad fair or unfair legitimate or illegitimate express clear beliefs about human existence The fact that values differ from culture to culture and century to century opens many questions In *The Origin of Values* Raymond Boudon offers empirical data based analysis of existing theories about values while developing his own perspective as to why people accept or reject value statements Boudon classifies the main theories of value including those based on firm belief social or biological factors and rational or utilitarian attitudes He discusses the popular and widely influential Rational Choice Model and critiques the postmodernist approach Boudon investigates why relativism has become so powerful and contrasts it with the naturalism represented by the work of James Q Wilson on moral sensibility He follows with a constructive attempt to develop a new theory beginning with Weber s idea of non instrumental rationality as the basis for a more complex idea of rationality Applying Boudon s own and existing theories of value to political issues and social ideas the end of apartheid the death penalty multiculturalism communitarianism *The Origin of Values* is a significant work Boudon fulfills a major task of social science explanation of collective belief His book will be of interest to sociologists philosophers psychologists and political scientists **Views and Values** Sayers,1995-01-01 *Views and Values* Kari Sayers,

Values and Behavior Sonia Roccas,Lilach Sagiv,2017-08-09 What are values How are they different from attitudes traits and specific goals How do our values influence our behavior and vice versa How does our culture and environment impact the relationship between values and behavior These questions and more are rigorously examined by prominent and emerging scholars in this significant volume *Values and Behavior Taking A Cross Cultural Perspective* Personal values are cognitive representations of abstract desirable motivational goals that guide the way individuals select actions evaluate people and events and explain their actions and evaluations The unique features of values have implications for their impact on behavior People are highly satisfied with their values and perceive them as close to their ideal selves At the same time however daily interpersonal interaction reveals that individuals hold different sometimes opposing value profiles These individual differences are even more apparent when individuals from different cultures interact The collected chapters

address the links between values and behavior from a cultural perspective They review studies conducted in various cultures and discuss culture as a moderator of the relationships between values and behavior Structurally part I of the volume discusses what values are and how they should be measure part II then examines the contents of the relationships between values and behavior in different life domains including prosocial behavior aggression behavior in organizations and relationships formation Part III explores some of the moderating mechanisms that relate values to behavior Taken together these chapters review and synthesize over twenty years of research on values and behavior and propose new insights that have important implications for both research and for practice
