Someone Of Value

Someone Of Value:

Value... and What Follows Joel J. Kupperman, 1998-12-31 How can we know what is worth seeking or avoiding in life Is there anything to know If so is it in some sense personal This fresh and engaging work by noted philosopher Joel Kupperman addresses these questions as it examines the epistemology of value Kupperman looks first at how judgments of values manifest themselves whether there can be evidence for them and whether a realistic account is appropriate Focusing on emotional states he rejects the notion that there is one primary value arguing instead for a pluralistic understanding of value He contends that value is strongly contextual the value of a particular set of experiences in one s life can depend heavily on how they fit in with or provide contrast to other elements Kupperman argues both for a realistic account of value some things really do have a value about which we can have reasonable confidence and for skepticism about how much we can actually know about value The study moves on to explore the relations between judgments of value and moral or social policy decisions of how we should behave Acknowledging strong objections to the attempt by any group to impose its vision of a good life in a pluralistic society Kupperman nevertheless argues that proper attention to value leads to perfectionism in social policy Emphasizing the importance of detail in ethics he focuses on variations among cases and examines the weight cultural values can have in the social policy of a liberal society Going further than previous works in determining what counts as evidence for a judgment of value this book fills a substantial gap in the literature of ethical philosophy Tackling difficult issues in an accessible manner it will interest philosophers and students of ethics epistemology and social theory *“Me, Myself & I”* Miriam Kwast, 2025-12-22 Do you know who you are who you re created to be Do you know who you re NOT and how to be free from living in who you re not This book will show you how to become strong and confident in knowing who you are and living with the values and boundaries that are truly important and directly relevant to who YOU are Take an adventurous and often surprising journey to find out what you didn t know you didn t know about YOU Learn how to live life freely and abundantly and in being YOU **Cosmopolitan Norms and European Values** Marie Göbel, Andreas Niederberger, 2023-08-03 This volume offers a systematic philosophical analysis of the normative challenges facing European refugee policy focusing on whether the response to it can be based on European values By considering the refugee policy through the lens of European values cosmopolitan norms and universal human rights the contributions expose the weaknesses and limitations of existing regulations and make proposals on how to improve them The EU is often seen as a cosmopolitan project Europe is supposed to be a community of states that aspires to be guided by cosmopolitan norms However the idea of a cosmopolitan Europe has never been unanimously shared and in recent years it has come under increasing scrutiny particularly with regard to the EU s refugee policy The guiding idea of this book is that a deeper philosophical understanding of the normative issues at stake can foster greater conceptual clarity and enrich political debates on the future of European refugee policy The first part of the book revolves around the question of whether the rise

in refugee numbers over the past decade has led to a crisis in the EU and if so how this crisis relates to or impacts European values The second part traces the history of the discourse on European values and examines from a philosophical perspective how we can plausibly understand these values in terms of their moral grammar their normative content and their implications for the behaviour of the EU and its member states Finally the third part puts forth recommendations for a feasible and normatively more compelling European refugee policy based on human rights human dignity justice and democratic self determination as the decisive normative requirements Cosmopolitan Norms and European Values Ethical Perspectives on Europe s Refugee Policy will be of interest to researchers and advanced students working in ethics political philosophy political science social sciences and law The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Creating Values in Life Ashok Gulla, 2010-04-27 Unfortunately very few people these days talk about real values in life What we stand for in life and are we living up to these values are worth pondering Are our aspirations in tune with the real

purpose of life It is the values that remind us often what to aspire in life Most people value life and its achievements from the perspective of wealth and richness but do not recognize trust honesty and contentment as forward looking attributes that help in overall satisfaction Giving importance to external growth leaving behind inner development often leads to unbalance in life devoid of overall satisfaction Much of the troubles in this world are that true values of life have narrowed down skewed ignored and misunderstood This book deliberates different aspects of life in terms of personal moral spiritual family and social values and how these can enrich life and fill its purpose A wide range of topics include How to live an easier life Thoughts on simplifying life Virtues of Integrity Mistakes we generally make Control on impulsive mind Being Successful in life Benefits from silence Communication with inner self Creating love for others How to think positive How moral values get reinforced Belief in natural justice What is spirituality Understanding self How to find God What does death mean to us Good family values Being part of whole universe Universal brotherhood Towards developing good values Attempt has been made to describe large issues that are outcome of misdirected value system and how best a person can move ahead in life by focusing on core values The idea of writing this book is to facilitate readers to pause and think about what they aspire and are these aspirations in tandem with broad purpose in life

Supreme Court Appellate Division-Fourth Judicial , Lumber World Review ,1919 The Magazine of Wall Street ,1925 An Outline of the Dialectic of Capital T.

Sekine,1997-09-30 A work of fundamental importance The most extensive and sophisticated reconstruction of Marx s Capital ever written takes the work of the Unoist school to new heights Robert Albritton Associate Professor of Political Science York University Toronto Sekine follows the method advanced by Kozu Uno to provide an updated version of Marx s economic theory in its full scope as described in the three volumes of Das Kapital It constitutes a dialectical system consisting of the doctrines of Circulation Production and Distribution The whole system defines the idea of capitalism More than a hundred years after Marx s death his economic work is revived here with the analytical rigour expected of modern scientific theory yet with no concession in substance to bourgeois economics
