Interconnection of the Wisdoms of Sages and Worthies The Ultimate Meaning of Dao De Jing Zhang Jiankun, *George Kateb* John Seery, 2014-10-24 George Kateb's writings have been innovatory in exploring the fundamental quandary of how modern democracy sovereignty vested in the many might nevertheless protect respect promote even celebrate the singular albeit ordinary individual His essays often leading to unexpected results have focused on many inter related topics rights representation constitutionalism war evil extinction punishment privacy patriotism and more This book focuses in particular on his thought in three key areas Dignity These essays exhibit the breadth and complexity of Kateb's notion of dignity and outline some implications for political theory Rather than a solely moral approach to the theory of human rights he elaborates a human dignity rationale for the very worth of the human species Morality Here Kateb challenges the position that moral considerations are often too demanding to have a place in the rough and tumble of modern politics and political analysis Rejecting common justifications for the propriety of punishment he insists that state based punishment is a perplexing moral problem that cannot be allayed by repairing to theories of state legitimacy Individuality These essays gather some of Kateb's rejoinders and correctives to common conceptions and customary critiques of the theory of democratic individuality He explains that Locke's hesitations and religious backtracking are instructive perhaps as precursors for the ways in which vestigial beliefs can still cloud moral reasoning
