Jeanette Lockerbie,1982-10-06 Things that frequently come to the attention of the homemaker supply the theme for this book of devotional readings Tied with scriptural admonitions and points of emphasis these common everyday objects and events provide illustrations for the truth found in selected Bible passages One hundred twenty two separate devotional thoughts speak to the heart under such titles Against a Rainy Day When God Is Slow Spock Style The Right to Be Angry The Twenty Four Hour Virus Sunday Dinner and Burned Toast There is something for each day to make a homemaker s daily experiences spiritually rewarding and meaningful *August Wilson's The Piano Lesson* August Wilson,2015 It is 1936 and Boy Willie arrives in Pittsburgh from the South in a battered truck loaded with watermelons to sell He has an opportunity to buy some land down home but he has to come up with the money right quick He wants to sell an old piano that has been in his family for generations but he shares ownership with his sister and it sits in her living room She has already rejected several offers because the antique piano is covered with incredible carvings detailing the family s rise from slavery Boy Willie tries to persuade his stubborn sister that the past is past but she is more formidable than he anticipated *Unity* ,1902

needs to stake his future But Berniece refuses to sell clinging to the piano as a reminder of the history that is their family legacy This dilemma is the real piano lesson reminding us that blacks are often deprived both of the symbols of their past and of opportunity in the present

Bronner,2025-12-29 In *Folklore and Ethnology of the Modern World* Simon Bronner identifies cultural engagements that people use to reconcile tradition and modernity and confront the anxieties of the present by bringing together the past often represented by tradition and the immediate digital unreal future These socially bounded symbol laden practices integrate ritual play narrative and object with the instrumental purpose of confronting paradoxes and tensions of modern life They provide the basis for a theory of how people cope culturally with change that appears to be outside of their control Bronner explains the social and psychological complexities of cultural engagements with case studies from different parts of the world connected by their often politicized clash between tradition and modernity The book explains the growth of strongman contests invoking mythology the evolving meaning of Chinese puzzle balls the responses to suppression of naval hazing traditions in Europe and America the ubiquitous infusion of magical thinking into email practices the meme diplomacy in the border wars between India and Pakistan and the projection of conflict onto cricket matches and the global implications of the rise of algorithmic folklore in an AI future This clear and accessible book is an essential read for anyone approaching the ethnological study of folklore and its interaction with modern society and culture
