**Austin's Way with Skepticism** Mark Kaplan, 2018-07-04 J L Austin is famous for writing as if he thought it a condition on the adequacy of what we say while doing epistemology that it accord faithfully with what we would say in ordinary circumstances A durable consensus formed after Austin's death that his pursuit of epistemology faithful to ordinary language was fundamentally misguided While critics saw his methods as resulting from a failure properly to understand the nature of the epistemologist's project Mark Kaplan argues that this consensus arose from a misreading of Austin In *Austin's Way with Skepticism: An Essay on Philosophical Method* he sets out his stance that both the condition of adequacy to which Austin was committed and his reason for being committed to it have been misunderstood by his critics Starting by carefully analysing what Austin said about knowledge in *Other Minds* examining the response to skeptical arguments and taking seriously the methodological remarks Austin scattered in his corpus Kaplan demonstrates that Austin's methods were not born of a misunderstanding of the project of epistemology Rather Austin was a powerful critique of how that project has been conceived though was not against epistemological theorizing itself Kaplan concludes that Austin understood himself to be offering substantive answers to key epistemological questions and defending a way of doing epistemology that is fully capable of providing these important answers

*Soul, Body, and Survival* Kevin Corcoran, 2001 How are soul and body related to one another Are human beings immaterial souls or complex physical organisms Will we survive the death of our bodies Does only the dualist view allow the possibility of life after death This collection brings together cutting edge research on the metaphysics of human nature and the possibility of post mortem survival Kevin Corcoran's collection *Soul Body and Survival* includes chapters from those who embrace traditional soul body dualism those who assert person body identity and those who propose entirely new views that fall outside the categories of monism and dualism The first book to connect the metaphysics of persons with the belief in life after death thus intersecting

with theological as well as philosophical inquiry it blurs the divide between metaphysics and the philosophy of mind

The papers by D. Lewis, R. Stalnaker, G. Lakoff, B. Partee and H. Herzberger appeared earlier in *Journal of Philosophical Logic* by arrangement of the editors with B. van Fraassen and D. Reidel Publishing Company. The editors thank the officers of The University of Western Ontario for making the workshop possible and Pauline Campbell for making the workshop work.

**THE EDITORS** DAVID LEWIS COUNTERFACTUALS AND COMPARATIVE POSSIBILITY  
In the last dozen years or so our understanding of modality has been much improved by means of possible world semantics: the project of analyzing modal language by systematically specifying the conditions under which a modal sentence is true at a possible world. I hope to do the same for counterfactual conditionals. I write  $A \rightarrow C$  for the counterfactual conditional with antecedent A and consequent C. It may be read as *H* it were the case that A then it would be the case that C or some more idiomatic paraphrase thereof.

**Alexander of Aphrodisias: On Aristotle Topics 3** Laura M. Castelli, 2021-10-07  
Aristotle's *Topics* is a handbook for dialectic, i.e. the exercise for philosophical debates between a questioner and a respondent. Alexander takes the *Topics* as a sort of handbook teaching how to defend and how to attack any philosophical claim against philosophical adversaries. In book 3 Aristotle develops strategies for arguing about comparative claims in which properties are said to belong to subjects to a greater, lesser or equal degree. Aristotle illustrates the different argumentative patterns that can be used to establish or refute a comparative claim through one single example: whether something is more or less or equally to be chosen or to be avoided than something else. In his commentary on *Topics 3* here translated for the first time into English, Alexander of

Aphrodisias spells out Aristotle's text by referring to issues and examples from debates with other philosophical school especially the Stoics of his time The commentary provides new evidence for Alexander's views on the logic of comparison and is a relatively neglected source for Peripatetic ethics in late antiquity This volume will be valuable reading for students of Aristotle and of the developments of Peripatetic logic and ethics in late antiquity
