Saharan Crossroads Tara F. Deubel, H el ene Tissier es, Scott M. Youngstedt, 2014-06-26 *Saharan Crossroads* Exploring Historical Cultural and Artistic Linkages between North and West Africa counteracts the traditional scholarly conception of the Sahara Desert as an impenetrable barrier dividing the continent by employing an interdisciplinary lens to examine myriad interconnections between North and West Africa through travel trade communication cultural exchange and correspondence that have been ongoing for several millennia *Saharan Crossroads* offers a unique contribution to existing scholarship on the region by uniting a diverse group of African European and American scholars working on various facets of trans Saharan history social life and cultural production and bringing their work together for the first time This trilingual volume includes eleven chapters written in English five chapters in French and three chapters in Arabic reflecting the multicultural nature of the Sahara and this international project *Saharan Crossroads* explores historical and contemporary connections and exchanges between populations living in and on both sides of the Sahara that have led to the emergence of distinctive cultural and aesthetic expressions This contact has been fostered by a series of linkages that include the trans Saharan caravan trade the spread of Islam the migration of nomadic pastoralists and European colonization The book includes three major sections 1 history culture and identity 2 trans Saharan circulation of arts music ritual performance and architecture and 3 religion law language and writing While the gaze of international political analysts has turned toward the Sahara to follow problematic developments that pose serious threats to human rights and security in the region it is especially timely to recall that the people and countries of the Sahelo Saharan world have maintained long histories of peaceful coexistence interdependence and cooperation that are too often overlooked in the present *Jet*, 1971-04-29 The weekly source of African American political and entertainment news *Twenty-Five Black African Filmmakers* Francois Pfaff, 1988-01-26 An invaluable work on black African cinema has at last appeared in English Francoise Pfaff's volume synthesizes relevant information devoid of hagiography about twenty five sub Saharan African filmmakers according a separate chapter consisting of a biography filmography and thematic analyses of individual films to each Varying critical viewpoints are brought to bear from both African and non African perspectives The author has gone beyond translation and compilation to explore the decades of black African cinema within the historical context of the continent's problematic emancipation *Twenty Five Black African Filmmakers* offers enormous insight along with valuable data heretofore unavailable in English Cineaste Black African motion pictures emerged in the 1960s at the height of the sociopolitical upheavals experienced by many nations in the transition from colonialism to independence Working mostly with minimal budgets and limited distribution opportunities African filmmakers nevertheless have been consistent prizewinners at international film festivals Francoise Pfaff introduces this developing artistic tradition to American readers with her informative and highly readable guide to the work of twenty five Black African directors **The Routledge History of Fashion and Dress, 1800**

to the Present Veronique Pouillard, Vincent Dubé-Sénécal, 2023-10-24 The time span covered by The Routledge History of Fashion and Dress starts in the nineteenth century with the aftermath of the consumers revolution and reaches all the way to the present The fashion and garment industries have been international from the beginning and as such this volume looks at the history of fashion and dress through the lenses of both international and global history Because fashion is also a multifaceted subject with human agency at its core at the confluence of the material fabrics clothing dyes tools and machines and the immaterial savoir faire identities images and brands this volume adopts a transdisciplinary perspective opening its pages to researchers from a variety of complementary fields The chapters in this volume are organized based on their relationship to five fields of study economics and commerce politics business identities and historical sources Paying particular attention to change the book goes beyond the great fashion capitals and well known fashion centers and points to the broader geographies of fashion Particular geographical areas focus on the emergence of new fashion systems and business models whether they be in Sweden Bangladesh or Spain or on the African continent considered to be the new frontier of the industry Covering myriad aspects of the subject this is the perfect companion for all those interested in history of dress and fashion in the modern world

Volume 9: Aesthetics and Philosophy of Art Guttorm Fløistad, 2007-03-16 The present volume is a continuation of the series Contemporary Philosophy As with the earlier volumes in the series the present chronicles purport to give a survey of significant trends in contemporary philosophy The need for such surveys has I believe increased rather than decreased over the years The philosophical scene appears for various reasons more complex than ever before The continuing process of specialization in most branches the increasing contact between philosophers from various cultures the emergence of new schools of thought particularly in philosophical logic and in the philosophy of language and ethics and the increasing attention being paid to the history of philosophy in discussions of contemporary problems are the most important contributing factors Surveys of the present kind are a valuable source of knowledge of this complexity The surveys may therefore help to strengthen the Socratic element of modern philosophy the intercultural dialogue or Kommunikationsgemeinschaft So far eight volumes are published in this series viz Philosophy of Language and Philosophical Logic Volume 1 Philosophy of Science Volume 2 Philosophy of Action Volume 3 Philosophy of Mind Volume 4 African Philosophy Volume 5 Medieval Age Philosophy Volume 6 1 and Volume 6 2 Asian Philosophy Volume 7 and Philosophy of Latin America Volume 8

Malian textile identified variously as bogolanfini bogolan or mudcloth Victoria L Rovine traces the dramatic technical and stylistic innovations that have transformed the cloth from its village origins into a symbol of new internationalism Rovine shows how the biography of this uniquely African textile reveals much about contemporary culture in urban Africa and about the global markets in which African art circulates Bogolan has become a symbol of national and ethnic identities an element of contemporary urban fashion and a lucrative product in tourist art markets At the heart of this beautifully illustrated book are the artists changing notions of tradition nationalism and the value of cloth making and marketing on a worldwide scale
