Albion's Glory Stephen H. Smith,2022-01-12 My book begins with a brief consideration of what we mean by English music and what factors are involved I explain the reasons behind my choice of composers for consideration and for the omissions from the survey   *A History of Western Choral Music, Volume 2* Chester L. Alwes,2016-08-03 A History of Western Choral Music explores the various genres key composers and influential works essential to the development of the western choral tradition Author Chester L Alwes divides this exploration into two volumes which move from Medieval music and the Renaissance era up to the 21st century Volume II begins at the transition from the Classical era to the Romantic with an examination of the major genres common to both periods Exploring the oratorio part song and dramatic music it also offers a thorough discussion of the choral symphony from Beethoven to Mahler through to the present day It then delves into the choral music of the twentieth century through discussions of the major compositional approaches and philosophies that proliferated over the course of the century from impressionism to serialism neo classicism to modernism minimalism and the avant garde It also considers the emerging tendency towards nationalistic composition amongst composers such as Bart k and Stravinsky and discusses in great detail the contemporary music of the United States and Great Britain Framing discussion within the political religious cultural philosophical aesthetic and technological contexts of each era A History of Western Choral Music offers readers specialized insight into major composers and works while providing a cohesive understanding of choral music s place in Western history   Contemporary Music and Spirituality Robert Sholl,Sander Van Maas,2016-08-12 The flourishing of religious or spiritually inspired music in the late twentieth and early twenty first centuries remains largely unexplored The engagement and tensions between modernism and tradition and institutionalized religion and spirituality are inherent issues for many composers who have sought to invoke spirituality and Otherness through contemporary music Contemporary Music and Spirituality provides a detailed exploration of the recent and current state of contemporary spiritual music in its religious musical cultural and conceptual philosophical aspects At the heart of the book are issues that consider the role of secularization the claims of modernity concerning the status of art and subjective responses such as faith and experience The contributors provide a new critical lens through which it is possible to see the music and thought of Cage Ligeti Messiaen Stockhausen as spiritual music The book surrounds these composers with studies of and by other composers directly associated with the idea of spiritual music Harvey Gubaidulina MacMillan P rt Pott and Tavener and others Adams Birtwistle Ton de Leeuw Ferneyhough Ustvolskaya and Vivier who have created original engagements with the idea of spirituality Contemporary Music and Spirituality is essential reading for humanities scholars and students working in the areas of musicology music theory theology religious studies philosophy of culture and the history of twentieth century culture   **The Bible in Music** Siobhán Dowling Long,John F.A.
