Resources in Education ,1999      **Teacher's Resource Book** Kula, Beverley,Tuinman, Jaap,O'Sullivan, Christine,1989  
Grade level 2 e p k t      The 'Resource' Approach to Mathematics Education Luc Trouche,Ghislaine Gueudet,Birgit  
Pepin,2019-11-29 This edited volume will help educators better analyze methodological and practical tools designed to aid  
classroom instruction It features papers that explore the need to create a system in order to fully meet the uncertainties and  
developments of modern educational phenomena These have emerged due to the abundance of digital resources and new  
forms of collective work The collected papers offer new perspectives to a rising field of research known as the  
Documentational Approach to Didactics This framework was first created by the editors of this book It seeks to develop a  
deeper understanding of mathematics teaching expertise Readers will gain insight into how to meet the theoretical questions  
brought about by digitalization These include how to analyze teachers work when they prepare for their teaching how to  
conceptualize the relationships between individual and collective work and how to follow the related processes over the long  
term The contributors also provide a comparative view in terms of contrasting selected phenomena across different  
educational cultures and education systems For instance they consider how differences in curriculum resources are available  
to teachers and how teachers make use of them to shape instruction Coverage also considers the extent to which teachers  
make use of additional material particularly those available through the global marketplace on the Internet This book builds  
on works from the Resources 2018 Conference Understanding teachers work through their interactions with resources for
