The Others:

The Collected Dialogues of Plato Plato, 1961-10-01 The Platonic Forms of the Platonic dialogues Rebecca Newberger Goldstein author of Plato at the Googleplex A landmark one volume edition of the complete Plato in classic translations This is a classic one volume edition of all the writings of Plato generally considered to be authentic The editors Edith Hamilton and Huntington Cairns chose the contents from the work of the best modern British and American translators The volume contains prefatory notes to each dialogue by Hamilton an introductory essay on Plato s philosophy and writings by Cairns and a comprehensive index with cross references to assist the reader with the philosophical vocabulary of the different translators

U.S. Foreign Policy and the Other Michael Patrick Cullinane, David Ryan, 2014-11-01 John Quincy Adams warned Americans not to search abroad for monsters to destroy yet such figures have frequently habituated the discourses of U S foreign policy This collection of essays focuses on counter identities in American consciousness to explain how foreign policies and the discourse surrounding them develop Whether it is the seemingly ubiquitous evil of Hitler during World War II or the more complicated perceptions of communism throughout the Cold War these essays illuminate the cultural contexts that constructed rival identities The authors challenge our understanding of others looking at early applications of the concept in the eighteenth century to recent twenty first century conflicts establishing how this phenomenon is central to decision making through centuries of conflict

The Second Vatican Council on Other Religions Gerald O'Collins, 2013-03-28 Many observers greeted the Second Vatican Council 1962-65 as the most important religious event in the twentieth century Its implementation and impact are still being felt in the Catholic Church the wider Christian world and beyond One sea change that Vatican II brought concerned Roman Catholic attitudes towards Judaism Islam and other religions Gerald O Collins breaks fresh ground by examining in detail five documents from the Council which embodied a new mindset about other religious faiths and mandated changes that quickly led to international and national dialogues between the Catholic Church and the followers of non Christian religions The book also includes chapters on the insights that prepared the way for the rethinking expressed by Vatican II and on the follow up to the Council s teaching found in the work of Pope John Paul II and Jacques Dupuis O Collins ably illustrates how the Council made a startling advance in official Catholic teaching about followers of other living faiths Carefully researched the book is written in the clear accessible style that readers of previous works by O Collins will recognize

Politics of the 'Other' in India and China Lion Koenig, Bidisha Chaudhuri, 2016-02-22 The social sciences have been heavily influenced by modernization theory focusing on issues of economic growth political development and social change in order to develop a predictive model of linear progress for developing countries following a Western prototype Under this hegemonic paradigm of development the world tends to get divided into simplistic binary oppositions between the West and the rest us and them and self and other Proposing to shift the discussion on what constitutes the Other as opposed to the Self from philosophy and cultural studies to the social sciences

this book explores how the structural asymmetries existing between Western discourses and the realities of the non Western world manifest themselves in the ideas institutions and socio political practices of India and China and in how far they shape the social scientist s understanding of their discipline in general It provides a counter narrative by revealing the relativity of geographies and by showing that the conventional presentation of core elements of the Asian socio political set up as aberrations from the Western models fails to acknowledge their inherent strategic character of adapting Western concepts to meet local requirements Drawing on multiple disciplines concepts and contexts in India and China the book makes a valuable contribution to the theory and practice of politics as well as to International and Asian Studies
