Subversive Words

David Garrioch

Subversive Words:

Spoken Word and Social Practice, 2015-07-14 *Spoken Word and Social Practice* Orality in Europe 1400 1700 addresses historians and literary scholars It aims to recapture oral culture in a variety of literary and non literary sources tracking the echo of women s voices on trial or bantering and gossiping in literary works and recapturing those of princes and magistrates townsmen villagers mariners bandits and songsmiths Almost all medieval and early modern writing was marked by the oral Spoken words and turns of phrase are bedded in writings and the mental habits of a speaking world shaped texts Writing also shaped speech the oral and the written zones had a porous busy boundary Cross border traffic is central to this study as is the power range utility and suppleness of speech Contributors are Matthias B hr Richard Blakemore Michael Braddick Rosanna Cantavella Thomas V Cohen Gillian Colclough Jan Dumolyn Susana Gala Pellicer Jelle Haemers Marcus Harmes Elizabeth Horodowich Carolina Losada Virginia Reinburg Anne Regent Susini Joseph T Snow Sonia Suman Lesley K Twomey and Liv Helene Willumsen

Revolutions in the Western World 1775-1825 Jeremy Black, 2017-07-12 Considering what has been described as an Age of Revolutions Black assesses a formative period in world history by examining the North American European Haitian and Latin American Revolutions Causes courses and consequences are all clarified in the articles selected and an introduction charts the major themes

The Making of Revolutionary Paris David Garrioch, 2004-08-16 An unusually compelling work of scholarly synthesis a history of a city of revolution in a revolutionary century Garrioch claims that until 1750 Paris remained a city characterized by a powerful sense of hierarchy From the mid century on however and with gathering speed economic demographic political and social change swept the city Having produced an extremely engaging account of the old corporate society Garrioch turns to the forces that relentlessly undermined it John E Talbott author of *The Pen and Ink Sailor Charles Middleton and the King s Navy 1778 1813* A truly wonderful synthesis of the many historical strands that compose the history of eighteenth century Paris In rewriting the history of the French Revolution as a more than century long urban metamorphosis Garrioch makes a brilliant case for the centrality of Paris in the history of France Bonnie Smith author of *The Gender of History Men Women and Historical Practice*

Reading, Writing, and Thinking Paul L. Thomas, Joe Kincheloe, 2006-01-01 In a world gone mad with standardized curricula and the degradation of the profession of teaching P L Thomas and Joe Kincheloe attempt to bring sanity back to the discussion of the teaching of some of the basic features of the educational process In *Reading Writing and Thinking The Postformal Basics* the authors take on the rational irrationality of current imperial pedagogical practices providing readers with provocative insights into the bizarre assumptions surrounding the contemporary teaching of reading writing and thinking The authors are obsessed with producing an accessible book for multiple audiences parents teachers scholars of education that moves beyond critique to a new domain of the social and educational imagination Readers of Thomas and Kincheloe s book embark on a mind trip beginning with what is and moving to the realm of what could be In this context they introduce readers to a critical theory of

thinking postformalism that moves the social and educational conversation to a new terrain of individual and social consciousness Tired of the same educational policies and solutions in the teaching of reading writing and thinking the authors become socio psychic explorers who move readers past the boundaries of contemporary pedagogical perception

Architecture, Print Culture and the Public Sphere in Eighteenth-Century France Richard Wittman,2007 This book focuses on the complex ways in which architectural practice theory patronage and experience became modern with the rise of a mass public and a reconfigured public sphere between the end of the seventeenth century and the French Revolution Presenting a fresh theoretical orientation and a large body of new primary research this book offers a new cultural history of virtually all the major monuments of eighteenth century Parisian architecture with detailed analyses of the public debates that erupted around such Parisian monuments as the east facade of the Louvre the Place Louis XV the Place de la Concorde and the church of Sainte Genevieve the Pantheon Depicting the passage of architecture into a mediatized public culture as a turning point and interrogating it as a symptom of the distinctly modern configuration of individual society and space that emerged during this period this study will interest readers well beyond the discipline of architectural history

The Great Exchange: Making the News in Early Modern Europe Joad Raymond Wren,2025-07-10 An epic history of the birth of news in Europe News moves It is a battle a scandal a disaster It is a letter a newspaper a proclamation News is a material thing but also something between us something we take into us and feel This book tells the story of news from the sunset of the Middle Ages to the rise of mass media in modern times It begins in Renaissance Italy with the envoys and merchants who drew in and disseminated news across Europe establishing its channels and conventions Following the beat of news around the continent it uncovers a vast invisible network traversing the boundaries of geography and politics religion and language Joad Raymond Wren allows the reader to see news of the battle of Lepanto the siege of Vienna spreading around this network in real time Dispelling the tenacious myth that news was until the printing press scarce and unreliable and until the telegraph slow and provincial he opens up windows onto a world buzzing with news from faraway News brought the distant closer and provided the means for Europe to know itself The continent was for a time held together by that most essential of human acts communication *Dictionary Catalog of the Slavonic Collection* New York Public Library. Slavonic Division,New York Public Library. Research Libraries,1974

The American Ecclesiastical Review Herman Joseph Heuser,1940 **The Man Who Flattened the Earth** Mary Terrall,2006-05-05 Self styled adventurer literary wit philosopher and statesman of science Pierre Louis Moreau de Maupertuis 1698 1759 stood at the center of Enlightenment science and culture Offering an elegant and accessible portrait of this remarkable man Mary Terrall uses the story of Maupertuis s life self fashioning and scientific works to explore what it meant to do science and to be a man of science in eighteenth century Europe Beginning his scientific career as a mathematician in Paris Maupertuis entered the public eye with a much discussed expedition to Lapland which confirmed Newton s calculation that the earth was flattened at the poles

He also made significant and often intentionally controversial contributions to physics life science navigation astronomy and metaphysics Called to Berlin by Frederick the Great Maupertuis moved to Prussia to preside over the Academy of Sciences there Equally at home in salons caf s scientific academies and royal courts Maupertuis used his social connections and his printed works to enhance a carefully constructed reputation as both a man of letters and a man of science His social and institutional affiliations in turn affected how Maupertuis formulated his ideas how he presented them to his contemporaries and the reactions they provoked Terrall not only illuminates the life and work of a colorful and important Enlightenment figure but also uses his story to delve into many wider issues including the development of scientific institutions the impact of print culture on science and the interactions of science and government Smart and highly readable Maupertuis will appeal to anyone interested in eighteenth century science and culture Terrall s work is scholarship in the best sense Her explanations of arcane 18th century French physics mathematics astronomy and biology are among the most lucid available in any language Virginia Dawson American Historical Review Winner of the 2003 Pfizer Award from the History of Science Society

Professor Smith and His Apologists. A Few Words Concerning ... 'The Authority of Scripture Independent of Criticism, by James S. Candlish, D.D.', and ... 'A Plain View of the Case of Professor W. Robertson Smith, by the Rev. Wm. Miller, M.A.' With an Appendix Containing Remarks on the Article 'Apocrypha' by Professor A.B. Davidson, in the New Edition of the 'Encyclopaedia Britannica' William Robertson Smith, 1878

If the King Only Knew Lisa Jane Graham, 2000 In May 1758 a bailiff named Jean Moriceau de La Motte was arrested for carrying seditious flyers and uttering mauvais discours against Louis XV When he was questioned at the Bastille over the next several months La Motte was unequivocal in his loyalty to the king but his insistence failed to convince the police and probably hurt his case more than would have a simple admission of guilt He was sentenced to be hanged on the Place de Gr ve after making his amends on the steps of N tre Dame His punishment seemed severe if not unwarranted to an increasingly literate and informed Parisian populace that found censorship hard to support either theoretically or practically in the face of intellectual and cultural changes wrought by the Enlightenment By looking at the police files for cases such as La Motte s Lisa Jane Graham uncovers fascinating clues to the conflicting attitudes of eighteenth century French subjects toward royal authority Individuals like La Motte often failed to see the subversive implications of their words and protested their fidelity to the king in impassioned language The crown s inability or refusal to accommodate a wider range of political speech turned the opinions of these individuals into bitter grievances and sometimes crimes Ironically the decision to repress seditious speech not only alienated essentially loyal French men and women by marking them as opponents of monarchical authority it strengthened their sense of their own autonomy and legitimacy as social actors The complex and surprising web of motivations lying at the heart of such loyalty as revealed in the police files Graham examines undermines some deeply rooted assumptions about the Enlightenment and its links to modernity Graham s book presents the eighteenth century as the

critical historical moment for studying how the premodern virtue of loyalty gave way to new ideas and vocabularies about the relationship between individuals and government If the King Only Knew attests to the powerful emotional and ideological conflicts this difficult transition unleashed New York Court of Appeals.
