Hermann Beckh's masterful study of Mark's Gospel offers much more than scholarly argument. It is the work of a true visionary who allows his readers to discover the meaning of the Earth and of humanity for themselves. Beckh was in the forefront of entirely new research and recovery of the Gospel, writing more for the future than for his own time. It is not uncommon for biblical scholars to view St. Mark's Gospel as little more than an assemblage of fragmentary sources and a copy of uncertain early memories. The Gospel is said to have little historical veracity, harmony, or guiding structure. Beckh's contemporary, the German writer Arthur Drews, even argued that the text was nothing more than a simplistic solar myth wherein another Sun hero pursued his way around the Greco-Roman constellations. Mark's Gospel: The Cosmic Rhythm is a response to such twentieth-century materialistic thinking. He was asked to write the book in the 1920s by the leaders of The Christian Community, who sought to rescue the desecrated Gospel from its opponents. Inspired by Rudolf Steiner and a vast knowledge of ancient languages—Tibetan, Sanskrit, Pali, and Avestan, along with Hebrew, Greek, and Latin—the Rev. Professor Hermann Beckh perceived how the Gospel reflects God's Everlasting Covenant and meticulously expressed its aesthetic unity, the consonance of its parts, and its consequent radiant clarity. His far-reaching understanding of sacred texts in the original languages, always associated with the disciplined meditation he had attained from anthroposophy, led to unprecedented insight. This new edition of his classic study has been revised and redesigned.
