**THE GOD WITHIN** Farnsworth Loomis, The God Within Emil Fackenheim, 1996-12-15 For nineteenth century thinkers the central problem of religious consciousness in the modern West was the tension between prevailing concepts of individual autonomy and the traditional Judaeo Christian claim for divine revelation The God Within brings together ten of Professor Emil Fackenheim s essays on the German Idealists who struggled to resolve this tension This philosophic preoccupation found its most searching and comprehensive expression when the traditional notion of God as Transcendent was reconceptualized as the God within The internalization of God s otherness reached its climax with Hegel the subject of Fackenheim s earlier work *The Religious Dimension in Hegel s Thought* This long awaited companion to that volume examines the earlier stages of the process beginning with its initiator Kant then considering Schelling in both his earlier and later phases and finally looking once more at Hegel The investigation of this movement together with the related themes of history and the literary arts leads to reflection on the significance of taking historicity seriously Included is the classic much cited article *Metaphysics and Historicity* which connects the philosophy of German Idealists to twentieth century questions of historicity and existential thought in particular The previously unpublished essay *Schelling in 1800 1801 Art as Revelation* provides an overview of philosophical history from Kant through Fichte and Schleiermacher to the later Schelling All the essays gathered here are concerned with the radical singularity of history and existence on the one hand and the demands of philosophical truth on the other They are informed by Professor Fackenheim s engagement with the profound philosophical challenges of our day particularly his efforts as a Jewish theologian to confront the horrors of the Holocaust We see through Fackenheim s exposition how these thinkers sought to come to terms with the presence of radical evil a problem whose modern relevance is explored in this volume s epilogue the 1988 essay *Holocaust and Weltanschauung Philosophical Reflections on Why They Did It*

*The God Within Speaks* Hazel Sinanan, 2013-09 *The God Within Speaks* is intended to inspire others to take inward steps through intent desire and action to allow their higher selves to work and live through them in order to facilitate higher consciousness which will open them up to the flow of the Mighty Source As the author unites her mind with that of her higher self allows her higher self to think with and through her and surrenders to the insights of her higher mind wisdom flows The result is inspired thinking that manifests in wisdom teachings aimed at opening up the minds of the readers to contemplate new perspectives and act as a catalyst for truth seeking

**God Within** Patti Conklin, 2014-05-21 Patti Conklin believes that when the universe began a cacophony of tones which we now identify as

frequency echoed throughout the universe and they were both chaotic and highly ordered This book is about how we can use that knowledge to impact our physical lives Patti Conklin has learned that everything in the universe has a frequency and that quantum physics goes hand in hand with metaphysics even though we are taught that the two are separate We are all made up of particles which vibrate and these particles were created by a source a God or Goddess she refers to as Father which is greater than the sum total of us humans In her work as a healer she has learned from the work of Bruce Lipton on cellular biology and Richard Gerber on vibrational medicine She has developed a toolbox a method to use the frequencies of light and sound to heal thousands of people Here are numerous true examples of people who experience real changes in health well being and spiritual transformation Sometimes we believe pain is necessary to heal We often don't have the faith to believe miracles can happen in the blink of an eye This book will help heal that illusion in an easy comprehensive way Whether you believe in science or faith in truth the idea that they are separate is only a perception The God Within Tom Allender, 1996 **I Am...living in the Rhythm of the God Within in the Key of G Minor** George Augustus Stallings, Jr., 2003 Stallings believes that we must take ownership of and responsibility for our inherited roles as children of God little gods as our Creator declared The realization and actualization of your god self is the key to unlocking your real identity and true destiny from book jacket The God Within Codex Library, 2025-03-22 The God Within is not a book of belief It is a remembering A call to awaken the power buried beneath identity fear and time Through twelve sacred chapters this book takes you on a journey from forgetting to remembrance from illusion to embodiment from seeker to creator No doctrines No dogma Only the eternal truth *The God Within* John Joseph Petrovic, 2016-03-23 Have you ever wondered who you really are How did you come to be in this lifetime on Planet Earth where were you before you were born and where will you be after you die And more fundamentally what is the essence of this you Intuitive answers to these questions are put forward in *The God Within* by the author Read this book slowly look within yourself and reflect if the reality presented resonates with your own intuition **The God Within Speaks** Hazel Sinanan, 2013-09-30 *The God Within Speaks* is intended to inspire others to take inward steps through intent desire and action to allow their higher selves to work and live through them in order to facilitate higher consciousness which will open them up to the flow of the Mighty Source As the author unites her mind with that of her higher self allows her higher self to think with and through her and surrenders to the insights of her higher mind wisdom flows The result is inspired thinking that manifests in wisdom teachings aimed at opening up the minds of the readers to contemplate new perspectives and act as a catalyst for truth seeking The Metaphorical Language Applied to God in the Old Testament.
