Office Daniela Pogade, 2008 The office will become increasingly more adept as a foil for the visions and the self-realisation of employers and architects. The forms these visions may take and the way in which planners today are approaching the task of designing workspaces is the subject of this volume, which uses a selection of 30 representative projects with a wide variety of different approaches. Some mark a break with the traditional organisation of offices; some it would seem want to make offices into artistic interiors; others yet again work with the psychology of colours and shapes or combine the interior with the landscape and environment. **Out of the Office - Love Where you Work!** Carlos Goncalves, 2015-03-31 Out of the Office
