Slave Masters

Leo de Colange

Slave Masters:

Black Slaveowners Larry Koger, 2011-12-02 Drawing on the federal census wills mortgage bills of sale tax returns and newspaper advertisements this authoritative study describes the nature of African American slaveholding its complexity and its rationales It reveals how some African American slave masters had earned their freedom and how some free Blacks purchased slaves for their own use The book provides a fresh perspective on slavery in the antebellum South and underscores the importance of African Americans in the history of American slavery The book also paints a picture of the complex social dynamics between free and enslaved Blacks and between Black and white slaveowners It illuminates the motivations behind African American slaveholding including attempts to create or maintain independence to accumulate wealth and to protect family members and sheds light on the harsh realities of slavery for both Black masters and Black slaves

MOTIVATIONS FOR SLAVEHOLDING Highlights the motivations behind African American slaveholding

A Slave's Place, A Master's World Nancy Priscilla Naro, 2016-10-06 A Slave's Place A Master's World based on original field research evaluates the transition from slave to free labour in rural Brazil highlighting the ways in which slaves free farmers freedmen and planters shaped the labour markets of an agrarian economy Documentation from two areas in the Rio de Janeiro hinterland provides the foundation for comparisons between slavery in Vassouras a highland town where coffee was produced for the export market and Rio Bonito a lowland town where coffee and foodstuffs were marketed regionally The book examines the settlement processes in both towns the marginalization of indigenous tribes the onset of slave labour and the de facto and de jure claims to land as planters small producers and slaves forged the bases of rural society A feature of the book is the detailed study of the link with the African past during the transition process when African languages customs and religion and social and work related networks were increasingly juxtaposed with master class practices on the fazendas

"Master and Slave"... Robert Seth McCallen, 1907 *The Sugar Masters* Richard Follett, 2005-06-01 Focusing on the master slave relationship in Louisiana's antebellum sugarcane country *The Sugar Masters* explores how a modern capitalist mind set among planters meshed with old style paternalistic attitudes to create one of the South's most insidiously oppressive labor systems As author Richard Follett vividly demonstrates the agricultural paradise of Louisiana's thriving sugarcane fields came at an unconscionable cost to slaves Thanks to technological and business innovations sugar planters stood as models of capitalist entrepreneurship by midcentury But above all labor management was the secret to their impressive success Follett explains how in exchange for increased productivity and efficiency they offered their slaves a range of incentives such as greater autonomy improved accommodations and even financial remuneration These material gains however were only short term According to Follett many of Louisiana's sugar elite

presented their incentives with a facade of paternal reciprocity that seemingly bound the slaves interests to the apparent goodwill of the masters but in fact the owners sought to control every aspect of the slaves s lives from reproduction to discretionary income Slaves responded to this display of paternalism by trying to enhance their rights under bondage but the constant bargaining process invariably led to compromises on their part and the grueling production pace never relented The only respite from their masters demands lay in fashioning their own society including outlets for religion leisure and trade Until recently scholars have viewed planters as either paternalistic lords who eschewed marketplace values or as entrepreneurs driven to business success Follett offers a new view of the sugar masters as embracing both the capitalist market and a social ideology based on hierarchy honor and paternalism His stunning synthesis of empirical research demographics study and social and cultural history sets a new standard for this subject

The Mastership and Its Fruits James McKaye, United States. War Department, 1864 An on the spot report on the master slave relationship in recently freed territory in the lower Mississippi River valley The report expresses optimism about the ability of freed slaves to adjust to the coming new order and favors grant of full civil rights and the franchise for freedmen but it finds former slave owners unreformed and unwilling to accept the demise of plantation slavery The report also describes the Army employment system for freedmen and the obstacles to a free labor system in the South and it favors federal oversight of the transition from slavery to the new order in the South
