The Final Four of Everything Mark Reiter, Richard Sandomir, 2009-12-15 Edited by Mark Reiter and Richard Sandomir and featuring contributions from experts on everything from breakfast cereal and movie gunfights to First Ladies and bald guys The Final Four of Everything celebrates everything that's great, surprising or silly in America using the foolproof method of bracketology to determine what we love or hate and why. As certain to make you laugh as it will start friendly arguments The Final Four of Everything is the perfect book for those who know a little and anyone with an opinion on celebrity mugshots, literary heroes, sports nicknames or bacon. Bracketology is a unique way of organizing information that dates back to the rise of the knockout or single elimination tournament, perhaps in medieval times. Its origins are not precisely known but there was genius in the first bracket design that hasn't changed much over the years. You, of course, may be familiar with the bracket format via the NCAA basketball tournament pairings each March. If you've ever watched ESPN or participated in a March Madness office pool, you know what a bracket looks like. The Final Four of Everything takes the idea one step further and applies the knockout format to every category BUT basketball. In areas where taste, judgment and hard-earned wisdom really matter, we've set out to determine truly the Final Four of Everything.
