conditions required to bring it about Part One presents a novel theory of democratic legitimacy and political identity formation on which subsequent analyses are based Part Two defines the EU as a democracy and provides a thorough democratic assessment of this political system Part Three explains why Belgium has largely succumbed to the centrifugal logic predicted by the LFT while Switzerland apparently defies this logic Part Four presents a model of centripetal democracy for the EU one that would greatly reduce its democratic deficit and ensure that this political system does not succumb to the centrifugal forces expected by the LFT
