them to build better political and social institutions This book examines the relationship between social science and public policy in left wing politics between the end of the Second World War and the end of the first Wilson government through the figure of Michael Young Drawing on Young s prolific writings and his intellectual and political networks it argues that he and other social scientists and policy makers drew on contemporary ideas from the social sciences to challenge key Labour values like full employment and nationalisation and to argue that the Labour Party should put more emphasis on relationships family and community Showing that the social sciences were embedded in the project of social democratic governance in post war Britain it argues that historians and scholars should take their role in British politics and political thought seriously

Stylasteridae Hjalmar Broch,1919 *The Danish Ingolf-expedition* ,1914 **The Eclectic Magazine of Foreign Literature, Science, and Art** ,1872 **The Danish Ingolf-Expedition** Danish Ingolf-Expedition,1918 **The Symmetrical Family** Michael Young,Peter Willmott,2023-08-11 First published in 1973 The Symmetrical Family combines evidence about the family of the past with information from a sociological survey in the London region and uses both as the basis for a speculative discussion about the future The argument is that a new style of family life has emerged Its basis is not equality between husbands and wives but at least something approaching symmetry increasingly wives work outside the home and husbands inside it The new family is itself under increasing pressure Contrary to the popular view there is yet no sign of a general increase in leisure In some occupations work is dominant and becoming more so at the same time the proportions of people in such jobs though still in the minority are expanding The growing demand of wives for paid work outside the home means that in place of two jobs one for the husband and one for the wife there will often be four with both working inside as well as outside the home How long will people be able to bear the consequent strain In a final chapter the authors discuss what they think will happen unless people decide quite deliberately to reduce the pressure upon themselves and their children This book will be of interest to students of sociology health social care anthropology and public policy
