general secretary of France's largest trade union organization the General Confederation of Labor or CGT as it is known from its French initials In this study based largely on French archival sources and contemporary printed materials Bruce Vandervort examines Griffuelhes growth as a labor radical in the context of the enormous changes in the industry and economy of France in the early years of this century It was a time when French artisans were struggling to find a role for themselves in a world where mass production methods were threatening their livelihoods and sense of self worth and where all French workers were seeking ways to establish and preserve their political and economic rights By tracing Griffuelhes life over a span that encapsulates the history of French organized labor from the Paris Commune to the Russian Revolution Vandervort offers a fresh perspective on the syndicalist movement in France
