Tango The Structure Of The Dance:

TANGO, The Structure of the Dance Mauricio Castro, 2021-11-16 Born in Buenos Aires Argentina Mauricio Castro is the founder of Tango Discovery and is a renowned dancer and teacher of Argentine Tango He created and developed a personal style of dancing and teaching tango in Buenos Aires and then through Tango Discovery he brought it to the rest of the world To his solid musical education at the prestigious Berklee College of Music Boston USA he added contemporary dance and movement technique studies Laban Analysis Bartenieff Fundamentals and The Skinner Releasing Technique among others In addition he also studied Human Sciences in Neuro Linguistic Programming Design Human Engineering and Human Ecology The joining of these disciplines and influences allowed him to create his particular and unmistakable style systematizing it into an innovative method to accelerate the process of learning to dance Breaking out from rigid sequences his focus is to develop improvisation skills through a simple and dynamic technique where students discover not only a relaxed and released style but also a new way of expressing and communicating with their bodies The synthesis of his method recognized worldwide by hundreds of dancers used to be available not only by attending his classes but also in his books and back then we are talking the year 2000 cutting edge multimedia CD ROMs They used to be available in several languages From the beginning Castro insists that the tango is and should be for anyone as it is something so pleasurable and common like breathing Repeating random exercises won't get you anywhere The proof is that there are people out there that have been trying to dance tango for years and they still can't they still believe that is a difficult dance I have found a NEW way of teaching and learning far better to whatever you have been doing Mauricio Castro This book must be taken as a sort of beginning and inspiration to generate movement It must be used to awaken and increase our curiosity in relation to dance producing new possibilities of movement and therefore new forms to express ourselves and enjoy our bodies This material can be used for doing exactly the opposite too That is why it is everyone's responsibility for paying attention to how you are practicing

A Somaesthetics of Performative Beauty Falk Heinrich,2023-04-14 This book develops an original theory of performative beauty Philosophical aesthetics has largely neglected one s own actions as a potential experience of the beautiful Throughout the book the author uses his own experiences of Argentine tango as a case study one important incentive for social dancing is to have pleasurable and beautiful experiences This book begins by investigating the methodological causes for why beauty in modernity has been seen to result only from contemplating external objects It then builds a theory of performative beauty that incorporates findings from new phenomenology neuroaesthetics enactivism and somaesthetics and that reassesses existing inquiries of beauty The result is an account that identifies kinaesthetic awareness as the point of emergence of both theory and practice of creation poiesis and perception aisthesis and of moving agency and being moved reception Performative beauty is the pleasure of being moved by the dance where the dancer feels both as a creative improviser and as an integrated part of the activity itself *A Somaesthetics of Performative Beauty* Tangoing Desire and Nostalgia will appeal to scholars and advanced students working in aesthetics dance studies performance studies and related fields of artistic research Chapter 6 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license
