Discovering World Religions at 24 Frames Per Second Julien R. Fielding,2008-09-26 Traditionally university students have gained access to world religions by reading primary texts Discovering World Religions at 24 Frames Per Second takes students beyond the written page offering an exploration of the same religious traditions through the study of feature films The many definitions of religion are examined along with its various components including doctrine myth ethics ritual and symbol Specific religious traditions including Hinduism Sikhism Zoroastrianism Buddhism Confucianism Daoism popular religion and Shinto are examined Biographical sketches of directors whose films tend to focus on a particular religious tradition are also included such as Zhang Yimou Hayao Miyazaki Deepa Mehta and Akira Kurosawa Discovering World Religions at 24 Frames Per Second is unique in the area of religion and film studies in that it isn't just a collection of essays Instead it provides the introductory student with the necessary background information on the various religions before looking at how their ideas can be understood not through texts but through the cinematic medium To keep the conversation fresh most of the films used in the book were made within the last decade Furthermore examples range from popular mainstream fare such as Star Wars and the Lord of the Rings trilogy to lesser known foreign films such as The Wooden Man's Bride and The Great Yokai War Several films with a cult like following are also discussed including Fight Club Princess Mononoke Spirited Away and Jacob's Ladder This book is also unique in that instead of drawing upon the Judeo Christian tradition it draws from Eastern traditions

Walker,1971 The Tao Is Silent Raymond M. Smullyan,2013-03-05 *The Tao Is Silent* is Raymond Smullyan s beguiling and whimsical guide to the meaning and value of eastern philosophy to westerners To me writes Smullyan Taoism means a state of inner serenity combined with an intense aesthetic awareness Neither alone is adequate a purely passive serenity is kind of dull and an anxiety ridden awareness is not very appealing This is more than a book on Chinese philosophy It is a series of ideas inspired by Taoism that treats a wide variety of subjects about life in general Smullyan sees the Taoist as one who is not so much in search of something he hasn t but who is enjoying what he has Readers will be charmed and inspired by this witty sophisticated yet deeply religious author whether he is discussing gardening dogs the art of napping or computers who dream that they re human **Religious Experience, Its Unity and Diversity** Thomas Mampra,1981 Papers presented at a seminar organized by the Center in Rome 1979

Journal of Chinese Religions , 2001 **Philosophy East & West** , 1996 *Cosmos and Community* Livia Kohn, 2004

The common view of Daoism is that it encourages people to live with detachment and calm resting in nonaction and smiling at the vicissitudes of the world Most people assume that Daoists are separate from the human community not antisocial or asocial but rather supra social and often simply different Daoists neither criticize society nor support it by working for social change but go along with the flow of the cosmos as it moves through them They are not much concerned with rules and the proprieties of conduct which they leave to the Confucians in the Chinese tradition Contrary to this common view Daoists through the ages have developed various forms of community and proposed numerous sets of behavioral guidelines and texts on ethical considerations Beyond the ancient philosophers who are well known for the moral dimension of their teachings religious Daoist rules cover both ethics the personal values of the individual and morality the communal norms and social values of the organization They range from basic moral rules against killing stealing lying and sexual misconduct through suggestions for altruistic thinking and models of social interaction to behavioral details on how to bow eat and wash as well as to the unfolding of universal ethics that teach people to think like the Dao itself About eighty texts in the Daoist canon and its supplements describe such guidelines and present the ethical and communal principles of the Daoist religion They document just to what degree Daoist realization is based on how one lives one's life in interaction with the community family religious group monastery state and cosmos Ethics and morality as well as the creation of community emerge as central in the Daoist religion A major new initiative in Daoist Studies *Cosmos and Community* is the first major English study of Daoist religious ethics Based on original translations of primary sources this is required reading for anyone interested in Daoism comparative ethics or Chinese history
