Tariff Protection and Industrialization Padma Desai,1970 *Tariff Policy and Industrialization in Nigeria* T. Ademola Oyejide,1975 *Industrialization in Malaysia* Rokiah Alavi,2006-09-07 Some of the most successful growth economies in the Pacific Rim have combined protectionist Import Substitution Industrialisation policies with export oriented policies This study provides a systematic rethinking of relationships between strategies within the Malaysian context **The Politics of Industrial Closure** Steven High,Stefan Berger,2026-03-24 The Politics of Industrial Closure explores how the political consequences of neoliberal globalization have led to the decline of industrial regions across Western Europe and North America Co editors and historians Steven High and Stefan Berger and the team of contributors depict that deindustrialization and its legacies have long term impacts by diving into its ongoing manifestations and aftermaths With collaboratively written chapters exploring Italy France Germany the United Kingdom the United States and Canada this volume examines the impacts of deindustrialization demonstrating that it is an uneven geographical spatial and temporal process This study transcends the local and regional investigations that often predominate deindustrialization studies and the wider transnational and cross national perspective of this work highlights the ways that geography matters in the deindustrialization process This collection pursues diverse avenues of investigation into deindustrialization in hopes to understand the deep roots of recent universal and political phenomena The Politics of Industrial Closure considers deindustrialization as yet another form of dispossession within global capitalism and seeks to break out of a unitary understanding of the problem of deindustrialization **Pakistan: Industrialization and Trade Policies** Stephen R. Lewis,Organisation for Economic Co-operation and Development. Development Centre,1970 Contents Covers Chapter 1 The Facts And Artifacts Of Industrial Growth In Pakistan Chapter 2 Instruments Of Economic Policy Chapter 3 The Factors Of Production Labour Entrepreneurship And Capital Chapter 4 Principal Policy Instruments And Their Effects On Incentives Chapter 5 The Effects Of Policy On Industrial Growth And Structure Chapter 6 Regional Development And Policy Chapter 7 A Brief Summary Rebound Copy Previous Booksellers Rubber Stamp On The Title Page Text Clean Condition Good **The Dependent Economy** Mats Ove Lundahl,Lennart Petersson,2019-06-26 This book aims to analyze Lesotho s prospects for economic advancement and examines the influence of the policies and economic development of South Africa on Lesotho s own potential for development *Tariff Protection in Industrial Countries* Bela A. Balassa,1965 **The House of Tata Meets the Second Industrial Revolution** Chikayoshi Nomura,2018-04-12 This monograph aims to analyze the economic and business history of colonial India from a corporate perspective by clarifying the historical role of institutional developments based on archival evidence of a representative enterprise The perspective is distinctively unique in that it highlights the salience of corporate level institutional responses to explain the causes of colonial India s industrial growth in addition to two renowned perspectives focusing on government economic policy or factor endowment One of the driving

forces of India's high growth rate since the 1980s is the expansion of modern business corporations whose origins date back to the colonial era in the mid nineteenth century This monograph explores the historical foundation of the growth of such corporations in colonial India guided by a substantial collection of documents of Tata Iron and Steel Company whose rich records have not received the due attention they have long deserved As clarified by numerous economic and business historians of leading industrialized countries since the works of Douglass North and Alfred Chandler this study as well proposes that the development of modern business corporations in colonial India was broadly supported by the reciprocal evolution of economic institutions and corporate organizations Adding a new perspective to the business and economic history of colonial India the analysis also provides an important case study of the development of corporate business in the non Western world to the study of global business history *Industrialization and Foreign Trade* League of Nations.

Turkey, Industrialization and Trade Strategy Bela Balassa,1982 Development policies of Turkey traditionally favored import substitution over exports and industry over agriculture The 1980 policy reforms aimed at changing this strategy by moving towards outward orientation and giving an increased role to market forces A medium term policy framework would complement the measures taken so far It should encourage efficient exports and import substitution promote savings and investment foster modernization and technical change and reform the state economic enterprises Eliminating inefficient investment projects would permit limiting the size of the public investment program and would necessitate economizing on public consumption expenditures Increasing the availability of investible funds is required to develop efficient exports and import substitution and rationalizing the system of incentives is necessary to ensure the appropriate choice of investments High rates of economic growth would generate increased employment as would greater outward orientation This growth will however continue to require considerable foreign assistance **Industrialization and Political Change** Dale Story,1978
