The Central Self:

The Central Self Patricia M. Ball, 2014-01-13 In this closely argued book Dr Ball is concerned to analyse the imaginative process of self understanding which emerged as a characteristic feature of English Romantic poetry and acquiring fresh creative force in the Victorian period has been transmitted to our own times as a determining principle of the contemporary imagination Dr Ball relates her discussion to the distinction between the poet speaking directly in his own voice and the impulse to dramatised utterance the two modes of poetic expression conveniently summed up in Keats's contrasting terms egotistical sublime and chameleon She shows how these polar tendencies co exist fruitfully in the work of Wordsworth Coleridge Byron Shelley and Keats and from this standpoint supplies a coherent appreciation of the little regarded plays written by these poets Turning to Victorian critics and poets Dr Ball considers how the Romantic inheritance fared at their hands She sees in the poets notably Tennyson Arnold Browning and Hopkins a vital link by which the Romantic commitment to the agency of self consciousness has been carried forward to the twentieth century and concludes with a brief sketch of the creative role of self exploration in T S Eliot and W B Yeats

Being and Becoming Franklyn Sills, 2008-09-23 Being and Becoming is a wide ranging analysis of the nature of being and selfhood The book presents an original integrated paradigm with the aim of creating a comprehensive overview of the human condition and finding ways to alleviate suffering In essence the book explores the question What does it mean to be Being and Becoming begins with fresh interpretations of the work of Martin Heidegger and Buddhist Taoist and Christian writings as they relate to this question Most of Being and Becoming however is about the nature of self and selfhood as a process of I am this my becoming rather than my being Author Franklyn Sills interweaves concepts from object relations theories psychodynamics pre and perinatal psychology and Buddhist self psychology along with his own rich experience as a Buddhist monk somatic therapist and psychotherapist into his inquiry The works of Fairbairn and Winnicott are discussed in depth as are Winnicott and Stern's insights into the nature of the early holding environment the infant mother relational field and early perceptual dynamics A thoughtful guide for psychologists therapists counselors and other health professionals the book is also ideal for Buddhists and anyone looking for alternative therapy models

On Becoming Responsible Michael S. Pritchard, 1991 Pritchard provides a deliberate and convincing argument for a starting point for the discussion of moral development on in which self regard and empathy provide equally essential groundings for individual morality Drawing essential elements from the work of Reid Strawson Rawls Kohlberg and Gilligan he builds a comprehensive framework for tracing moral development from childhood one that allows human morality

to be grounded in both reason and emotion and that recognizes the importance to morality of justice and rights as well as caring and responsibility *Science* John Michels,1907 **Milcha Sanchez-Scott's "The Cuban Swimmer".
