Porter,Wendy J. Porter,2025-02-19 We live in a secular age or so we have been told Nevertheless the Christian church strongly believes that we still experience and in fact are surrounded by acts of transcendence encounters with God that often defy imagination and explanation And yet we do try to explain such phenomena whether theologically experientially biblically historically philosophically literarily or even or especially artistically These two volumes are more than just papers from a major conference on secularism and the pursuit of transcendence held at McMaster Divinity College in Hamilton Ontario They contain genuine attempts by people deeply engaged with their secular surroundings to explain what we mean by transcendence Transcendence has been a longstanding topic among the best thinkers of this and previous ages and the same is true for these volumes which include contributions by Charles Taylor Robert Wuthnow Merold Westphal and Christina Gschwandtner but also by a wide range of others who address the question from divergent vantage points The responses vary as much as the orientations of those involved in the pursuit of defining not only what it means to live in our secular age but to be involved in the pursuit of transcendence or even to perceive the Transcendent s pursuit of us *The Principles of Sociology: part II. Italian philosopher scholar and Dominican friar SAINT THOMAS AQUINAS 1225 1274 widely considered the Catholic Church's greatest theologian. Famously consulted immediately after the Bible on religious questions at the Council of Trent, Aquinas's masterpiece has been considered a summary of official Church philosophy ever since. Aquinas considers approximately 10,000 questions on Church doctrine covering the roles and nature of God, man, and Jesus, then lays out objections to Church teachings and systematically confronts each using Biblical verses. Theologians and philosophers bolster his arguments. In Volume III, Aquinas addresses faith and heresy, charity, peace, and war, mercy, anger, and justice, prayer, truth, and much more. This massive work of scholarship, spanning five volumes, addresses just about every possible query or argument that any believer or atheist could have and remains essential more than seven hundred years after it was written for clergy, religious historians, and serious students of Catholic thought.

Voicing the Ineffable Siglind Bruhn, 2002. The relationship between music and religion has long been a clearly delineated one. Up to the late Middle Ages, music employed for ritual expressions of faith in sacred contexts was contrasted with secular music, then mostly played in open spaces. The former was believed to aid in the communication of divine truths, while the latter was suspected of arousing sensuality and thus potentially leading away from the spiritual perspective of life. In subsequent centuries, music entered first the courtly salons, then the concert hall and the home. Such music, created for virtuoso performance or for the enjoyment in private chambers, occasionally made room for an expression of religious experiences outside the dedicated spaces of worship. This aspect is particularly intriguing in instrumental music, where allusions to extra-musical messages are at best hinted at in titles or explanatory notes, and in those cases of vocal music where it can be shown that the musical language adds significant nuances to the verbal text. On the basis of various case studies that transcend a music-analytical approach in the direction of the hermeneutic perspective, this volume explores in which ways the musical language, in itself independently of an explicitly sacred context, communicates the ineffable. The discussion focuses on the musical means and devices employed to this effect and on the question what the presence of religious messages in certain works of secular music tells us about the spirituality of an era.
