Forgotten Queens in Medieval and Early Modern Europe examines queens dowager and queens consort who have
disappeared from history or have been deeply misunderstood in modern historical treatment Divided into eleven chapters
this book covers queenship from 1016 to 1800 demonstrating the influence of queens in different aspects of monarchy over
eight centuries and furthering our knowledge of the roles and challenges that they faced It also promotes a deeper
understanding of the methods of power and patronage for women who were not queens many of which have since become
mythologized into what historians have wanted them to be The chronological organisation of the book meanwhile allows the
reader to see more clearly how these forgotten queens are related by the power agency and patronage they displayed despite
the mythologization to which they have all been subjected Offering a broad geographical coverage and providing a
comparison of queenship across a range of disciplines such as religious history art history and literature Forgotten Queens in
Medieval and Early Modern Europe is ideal for students and scholars of pre modern queenship and of medieval and early
modern history courses more generally Princes and Princesses Henry Elliot Malden,1878 *The Plain of Thebes* ,1897
