The Big Heat Library Edition

Dionysius Lardner

The Big Heat Library Edition:

The Big Heat Jeffrey St. Clair, Joshua Frank, 2019-01-04 The world as we know it is undergoing a sudden and violent transformation unlike anything the planet has experienced since the Cretaceous Extinction The evidence is all around us vast droughts that last decades super storms and floods that destroy cities dwindling aquifers vanishing glaciers toxic water supplies raging wildfires obscure new diseases vanishing species and indigenous communities Our planet is changing faster than evolution can keep up The forces driving this radical transformation are not natural The earth has been brought to the brink by a greed based predatory economic system that chews up anything in its path and spits it out to the bitter end Environmental journalists Jeffrey St Clair and Joshua Frank take you on a sobering field trip through the danger zones from the strip mines of Appalachia to last refuge of the grizzly from the dirty fracking fields to the world s most dangerous place the Hanford Nuclear Site in the Pacific Northwest The Big Heat charts the battle lines for the future of the planet from corporate villains to corrupt politicians and the fearless environmentalists who are standing up against the pillaging This is an unflinching chronicle of the last fight that really matters

Heat and light. (Mechanics and experimental sci. as required for the matric. exam of the Univ. of Lond.). Edward Bibbins Aveling, 1888 *Mechanics. Hydrostatics, hydraulics, pneumatics, and sound. Optics.- v. 2. Heat. Magnetism, common electricity, and voltaic electricity.- v. 3. Meteorology.*
