The Leadership Imagination Donald R. LaMagdeleine, 2016-03-25 The field of leadership studies needs theory and research techniques that balance conventional science with the arts and humanities in order to capture leadership's moral dimension Borrowing from Aristotle's account of the three types of knowledge the author argues that leadership is an in between form that combines craft based skill with theoretical knowledge adapted for a specific situation's unique characteristics The book discusses three sociology traditions and a distinctive variety of the history of religions while synthesizing their core premises The resulting hybrid enables leadership analysis that emphasizes power dynamics cloaked in quasi mythic discourse The author labels this perspective the leadership imagination and its mode of analysis taxonomic leadership analysis The book includes methodological tips on how to construct such analysis and two case study chapters that exemplify it While the example analyses concern leadership issues at the national and international levels the approach works equally well with individual organizations LaMagdeleine's non conventional approach to leadership and management makes this an enlightening study for graduate students in leadership and business programs and provides new analytic tools for students and faculty conducting research in business ethics and policy studies

the Reagan Bush Sr and Clinton years thanks to strong but carefully measured policies the disaster that hit when Bush Jr decided to democratize Afghanistan and Iraq the deep Change that Obama attempted to bring to a centuries old traditional America and finally the arrival of Trump deeply contested by political adversaries It looks at the moral spiritual character rather universally Christian of America s national leadership since 1960 and how that had its own impact on the country even during this distinctly post Christian period The narrative concludes with a review of the various political moral lessons we should draw from America s own national narrative particularly the necessity of getting back into an all important Covenant relationship with God
