The Cartoonist 42:

The Artist as Economist Sophie Cras, Cécile Whiting, 2019-11-05 This groundbreaking examination of the intersection between artistic practice and capitalism in the 1960s explores art's capacity to reflect on and reimagine economic systems and our place within them

The Artist's Mind George Hagman, 2010-06-18 This book examines how contemporary psychoanalytic theory provides insight into understanding the psychological sources of modern art

The Boston Port Bill as Pictured by a Contemporary London Cartoonist Richard Townley Haines Halsey, Grolier Club, 1904

Germaine de Staël, George Sand, and the Victorian Woman Artist Linda M. Lewis, 2003 By examining literary portraits of the woman as artist Linda M. Lewis traces the matrilineal inheritance of four Victorian novelists and poets George Eliot Elizabeth Barrett Browning Geraldine Jewsbury and Mrs Humphry Ward She argues that while the male Romantic artist saw himself as god and hero the woman of genius lacked a guiding myth until Germaine de Staël and George Sand created one The protagonists of Staël's Corinne and Sand's Consuelo combine attributes of the goddess Athena the Virgin Mary Virgil's Sibyl and Dante's Beatrice Lewis illustrates how the resulting Corinne Consuelo effect is exhibited in scores of English artist-as-heroine narratives particularly in the works of these four prominent writers who most consciously and elaborately allude to the French literary matriarchs Exploring a connection between French and English literature and providing fresh insight Germaine de Staël George Sand and the Victorian Woman Artist makes a major contribution to our understanding of nineteenth-century feminism Jacket

The Representation of the Struggling Artist in America, 1800-1865 Erika Schneider, 2015-04-23 The Representation of the Struggling Artist in America 1800-1865 analyzes how American painters sculptors and writers active between 1800 and 1865 depicted their response to a democratic society that failed to adequately support them financially and intellectually Without the traditional European forms of patronage from the church or the crown American artists faced unsympathetic countrymen who were unaccustomed to playing the role of patron and less than generous in rewarding creativity It was in this unrewarding landscape that American artists in the first half of the nineteenth century employed the struggling or starving artist image to satirize the country's lack of patronage and immortalize their own struggles Through an examination of artists' journals letters and biographies as well as the development of art academies and exhibition venues this study traces the evolution of a young nation that went from considering artists as mere craftsmen to recognizing them as important members of a civilized society
