 Lustig,2021-05-04 The New York Times bestselling author of Fat Chance explains the eight pathologies that underlie all
 chronic disease documents how processed food has impacted them to ruin our health economy and environment over the
 past 50 years and proposes an urgent manifesto and strategy to cure both us and the planet Dr Robert Lustig a pediatric
 neuroendocrinologist who has long been on the cutting edge of medicine and science challenges our current healthcare
 paradigm which has gone off the rails under the influence of Big Food Big Pharma and Big Government You can t solve a
 problem if you don t know what the problem is One of Lustig s singular gifts as a communicator is his ability to connect the
 dots for the general reader in order to unpack the scientific data and concepts behind his arguments as he tells the real story
 of food and the story of real food Metabolical weaves the interconnected strands of nutrition health disease medicine
 environment and society into a completely new fabric by proving on a scientific basis a series of iconoclastic revelations
 among them Medicine for chronic disease treats symptoms not the disease itself You can diagnose your own biochemical
 profile Chronic diseases are not druggable but they are foodable Processed food isn t just toxic it s addictive The war
 between vegan and keto is a false war the combatants are on the same side Big Food Big Pharma and Big Government are on
 the other side Making the case that food is the only lever we have to effect biochemical change to improve our health Lustig
 explains what to eat based on two novel criteria protect the liver and feed the gut He insists that if we do not fix our food and
 change the way we eat we will continue to court chronic disease bankrupt healthcare and threaten the planet But there is
