The Female Voice in The Assembly of Ladies Simone Celine Marshall,2008 The Assembly of Ladies is a fifteenth century secular love poem in Middle English that adheres closely to conventional poetic structures but throws these conventions into relief as it presents the narrative from a woman TM s point of view a rare occurrence for poetry of this period Who wrote it for whom and why are questions about which we can speculate but never ultimately answer the poem itself gives us few clues Yet the poem has had a remarkable shelf life in subsequent centuries the poem has continued to be noticed read and debated as a small but significant artefact from fifteenth century England This book examines how fifteenth century English social conventions impact upon gender relations in The Assembly of Ladies By drawing on contemporary and clearly influential texts from the fifteenth century as a comparison Marshall shows how The Assembly of Ladies has integrated social conventions into its themes and structure elevating for the reader the ways that social and literary conventions impact on women in the production and consumption of literature
