

# How to Groom Your Cat

## 1 Start by Brushing

Start by using a soft-bristled brush or comb to remove any loose or tangled hair from your cat's coat. This will help to prevent matting and reduce shedding. If your cat has long hair, you may need to use a slicker brush to remove tangles and knots. Be gentle when brushing, and use a comb to work out any stubborn knots.

## 2 Trim Your Cat's Nails

Trim your cat's nails regularly to prevent them from becoming overgrown and causing discomfort. Use pet nail clippers or scissors designed specifically for cats, and be careful not to cut the quick (the pink part of the nail that contains blood vessels and nerves).

## 3 Clean Face, Ears & Paws

Use a damp cloth or pet wipe to clean your cat's face, ears, and paws. Be sure to use a gentle, non-toxic cleaning solution that is safe for pets.

## 4 Take Them for Bath

Cats are generally clean animals and do not need frequent baths. However, if your cat gets very dirty or has a skin condition that requires bathing, use a cat-specific shampoo and make sure to rinse thoroughly to avoid leaving any residue.

## 5 Blow Your Cat Dry

Choose a quiet and warm area to blow-dry your cat. Place a soft towel or blanket on the floor or a table and make sure your cat is comfortable and secure. Begin drying your cat on the lowest setting of the hair dryer and always keep a safe distance.
