Lawless, 2016-03-22 The Middle East defined here as extending from Morocco to Iran and Turkey to Sudan lies at the crossroads of three continents Africa Asia and Europe With the largest reserves of petroleum in the world its importance is well beyond its physical size and population Rapid urban growth has radically transformed Middle Eastern society in recent decades but the associated problems are incompletely understood This volume first published in 1980 highlights some of the major issues of Middle Eastern urbanisation and provides a comprehensive statement about the current position of research Urban origins and the nature of urban growth are discussed to provide a background to considerations of migration employment housing and retailing The contributors suggest that planning strategies have hitherto proved inadequate with small towns being largely overlooked historic quarters rapidly disappearing and water in short supply Future research into all these problem areas is considered essential but the research must be coordinated and utilised Concentrating on practical problems achievements and challenges for research the contributions in this book specially commissioned from active researchers in the field will prove a valuable guide to recent ideas and developments in the Middle East

**Contents of Periodicals on the Middle East** ,1983      **Traditions, Changes, and Challenges** Combat Studies Institute Press,Louis a DiMarco,2019-07-02 The Middle East is one of the most urbanized regions of the world and growth continues at an unprecedented rate With operations ongoing in the Middle East today it is fitting that this inaugural study should focus on military aspects of the urban areas of that region There is an undoubted need for US military planners to possess a solid foundation of military history cultural awareness and an understanding of the intricacies of city design and function in this critical region Each conflict brings its own challenges and dynamics The challenges of a Middle Eastern fight require decisive involvement in that region s cities The enemy is adaptive we must be adaptive as well This call to study and understand history and culture is the first step along that road to critical thinking and adaptability      The Commercial and Financial Chronicle ,1925      **Approaches to the History of the Middle East** Nancy Elizabeth Gallagher,1994      The Humanity of Cities John Gulick,1989 I recommend this book highly to social scientists who are looking for a review or refresher course in urbanology advanced undergraduate students and introductory graduate students As our American college student bodies become more culturally diverse The Humanity of Cities provides a welcome respite from the usual culture bound texts that give limited attention for effect only of the stereotypical Third World Contemporary Sociology Gulick s style is to develop each topic by presenting appropriate case studies He manages to include an enormous range of studies and he wisely reaches out beyond anthropology to the many fields that concern themselves with urban life This book is consequently an excellent compilation of the recent history of theoretical and empirical research on an in cities The 28 page bibliography is itself a tour de force American Anthropologist Combining major urban theories with empirical studies from around the world the author offers poignant glimpses into urban life including the streets of San Francisco as seen through the eyes of a proud garbage collector the marketplace of Ibadan as seen by a petty food trader the curiously empty streets of Fun city a California retirement community and Cairo s teeming cemetery the City of the Dead filling with the living The problems of urban life are shown to be more a result of worldwide forces rather than the intrinsic nature of cities This major new and timely contribution to the field is a most useful way to introduce urban scholars planners and students in a variety of disciplines to The Humanity of Cities A complete teachers manual makes this the perfect text      **Arab Culture and Society in Change** Université Saint-Joseph (Beirut, Lebanon).
