The Shape of Hebrew Poetry Matthew Ian Ayars,2018-11-26 In The Shape of Hebrew Poetry Matthew Ayars explores foregrounding and structural cohesion as the dual discourse function of linguistic parallelism in biblical Hebrew poetry through a robust application of Russian Formalist Roman Jakobson s conceptualisation of linguistic parallelism to the Egyptian Hallel Psalm 113 118 Other hebraists and biblical Hebrew poetry specialists have long noted the importance of Jakobson s theory of parallelism for poetic texts of the Hebrew Bible however Ayars is the first to offer an application of Jakobsonian based analysis to a poetic corpus of the Hebrew Bible

The Resurrection of the Dead Karl Barth,2003-10-07 Karl Barth saw Chapter 15 as the center of 1st Corinthians arguing that a misunderstanding of the resurrection underlies all the problems in Corinth In this volume he develops his view of biblical eschatology asserting that Chapter 15 is key to understanding the testimony of the New Testament Barth understood the last things not as an end to history but as an end history with which any period is faced He only speaks of last things who would speak of the end of all things of their end understood plainly and fundamentally of a reality so radically superior to all things that the existence of all things would be utterly and entirely based upon it alone and thus in speaking of their end he would in truth be speaking of nothing else than their beginning Page 104

Theogonie from the Sources of Classical, Hebrew and Christian Antiquity Ludwig Feuerbach,2024-05-09 Theogony titled in German Theogonie nach den Quellen des classischen hebr ischen und christlichen Alterthums is one of Feuerbach s largest and core works published in 1857 that lays out his view of history and how his views are a revolutionary breakthrough It is titled after the epic poem by Hesiod of the same name In this work Feuerbach argues that the gods of Greek mythology are projections of human consciousness and that the true essence of religion can only be understood by examining the human mind and its relationship to the natural world He extends this critique of religion to the modern day and uses it to argue against Hegelianism Nietzsche copies this critique early in his career making the same argument that religion merely is a defense mechanism and morality merely a tool for the weak to restrict the strong Schopenhauer and Nietzsche both took their satirical criticism about religion from Feuerbach and every aspect of Marxism can be found here in Marx s favorite Philosopher Feuerbach is a critical figure in the development of not merely Marxism but Materialistic Humanism in general

Feuerbach is critical to understanding Marx Feuerbach's insistence that art mediates human frailty through divine imagery is equally reductive To claim that Phidias's Zeus or Homer's pantheon merely aestheticize vulnerability ignores how these works grapple with paradoxes of power fate and ethics Feuerbach's gods are passive reflections not active symbols inviting interpretation This undermines art's capacity to provoke critical thought reducing it to a therapeutic tool for soothing existential dread His analysis echoes 19th century positivism's arrogance assuming that demystifying religion erases its value rather than engaging why such myths endure across epochs a neo iconoclasm Here we see genocidal Nietzschean undertones which justified the Holodomor religion as a tool for sublimating weakness tempered by Feuerbach's humanism which seeks reconciliation rather than domination Where Nietzsche's Genealogy champions aristocratic revolt Feuerbach envisions communal solidarity Contemporary scholars critique Feuerbach's Eurocentrism and privilege something Marx pointed out Feuerbach's Theogony reduces religion to a psychological crutch arguing that gods are mere projections of human desires a thesis that flattens myth into simplistic wish fulfillment His reading of Homer where Zeus's authority hinges on Achilles' rage collapses divine agency into human emotion dismissing the cultural and symbolic complexity of ancient theology This approach risks intellectual laziness treating myth as a mirror for individual angst rather than a layered system of meaning shaped by collective values historical context and existential inquiry By framing prayer as self-delusion mortals talking to themselves through gods Feuerbach ignores how ritual and narrative create shared identity moral frameworks and communal resilience His materialism strips Myth of its autonomy reducing it to a footnote in humanity's struggle with impotence as Schelling noted philosophy reduced to glands This fully unabridged translation of Ludwig Feuerbach's seminal work brings new clarity to his dense and incredibly specific philosophical prose offering contemporary readers a fresh lens on one of the key thinkers of 19th century philosophy More than just a translation this edition includes carefully curated extra materials designed to clarify Feuerbach's unique place in the genealogy of ideology and relevance today A fresh Afterword focuses on Karl Marx's critical engagement with Feuerbach's ideas revealing the pivotal role Feuerbach played in shaping Marxist thought Also included is a detailed timeline of Feuerbach's life and works as well as a helpful glossary of philosophical terms making this volume an essential resource for students scholars and curious readers alike
