The Democratic State

John Dryzek, Patrick Dunleavy

The Democratic State:

Theories of the Democratic State John Dryzek, Patrick Dunleavy, 2009-05-14 We live in a world governed by states whose enduring importance and domination of contemporary politics has been strikingly underlined by their renewed activism in the face of a global economic crisis Yet the very nature of states remains deeply contested with a range of competing theories offering very different views of how they actually do or should operate In the past this competition has led to deep ideological conflict and even to war In this major new work John S Dryzek and Patrick Dunleavy provide a broad ranging assessment of classical and contemporary theories of the state focusing primarily on the democratic state form that has come to dominate modern politics The authors starting point is the classical theories of the state pluralism elite theory Marxism and market liberalism They then turn to the contemporary forms of pluralism prevalent in political science systematically exploring how they address central issues such as networked governance globalization and changing patterns of electoral and identity politics They proceed to analyse a range of key contemporary critiques of modern states and democracy that have emerged from feminism environmentalism neo conservatism and post modernism Each approach is carefully introduced and analysed as far as possible in relation to a common set of issues and headings **Theories of the Democratic State** takes the reader straight to the heart of contemporary issues and debates and in the process provides a challenging and distinctive introduction to and reassessment of contemporary political science **Theory of the**

Democratic State Marie Collins Swabey, 1939 [The Case Against the Democratic State](#) Gordon Graham, 2002 We are now so familiar and accepting of the State's pre-eminence in all things that few think to question it and most suppose that democratic endorsement legitimizes it The aim of this book is to present a compelling argument against both presumptions

, Stephen L. Elkin, 1985-04-18 One outcome of the declining economic growth and rising political conflict of the 1980s has been a renewed interest in political theory and increased questioning about the durability of the capitalist state More and more political scientists are critically assessing the prevailing pluralist vision of the relationships between the state and the economy Is the capitalist state able to adjust to crises and contradictions What is the role of the state in changing deteriorating economic circumstances How should we understand competing interpretations on the relative autonomy of the state the nature of property rights the legitimation crisis This collection of five original essays by seven of the best known political economy theorists addresses the interconnections between the economy and the polity and embodies the leading
