Making Italian America Simone Cinotto, 2014-04-01 How do immigrants and their children forge their identities in a new land, and how does the ethnic culture they create thrive in the larger society? Making Italian America brings together new scholarship on the cultural history of consumption, immigration, and ethnic marketing to explore these questions by focusing on the case of an ethnic group whose material culture and lifestyles have been central to American life: Italian Americans. As embodied in fashion, film, food, popular music, sports, and many other representations and commodities, Italian American identities have profoundly fascinated, disturbed, and influenced American and global culture. Discussing in fresh ways topics as diverse as immigrant women's fashion, critiques of consumerism in Italian immigrant radicalism, the Italian American influence in early rock and roll, ethnic tourism in Little Italy, and Guido subculture, Making Italian America recasts Italian immigrants and their children as active consumers who, since the turn of the twentieth century, have creatively managed to articulate relations of

race gender and class and create distinctive lifestyles out of materials the marketplace offered to them The success of these mostly working class people in making their everyday culture meaningful to them as well as in shaping an ethnic identity that appealed to a wider public of shoppers and spectators looms large in the political history of consumption Making Italian America appraises how immigrants and their children redesigned the market to suit their tastes and in the process made Italian American identities a lure for millions of consumers Fourteen essays explore Italian American history in the light of consumer culture across more than a century long intense movement of people goods money ideas and images between Italy and the United States a diasporic exchange that has transformed both nations Simone Cinotto builds an imaginative analytical framework for understanding the ways in which ethnic and racial groups have shaped their collective identities and negotiated their place in the consumers emporium and marketplace Grounded in the new scholarship in transnational U S history and the transfer of cultural patterns Making Italian America illuminates the crucial role that consumption has had in shaping the ethnic culture and diasporic identities of Italians in America It also illustrates vividly why and how those same identities incorporated in commodities commercial leisure and popular representations have become the object of desire for millions of American and global consumers

tradition and innovation as immigrants made their way through a city divided by class conflict ethnic hostility and racialized inequalities Drawing on a vast array of resources including fascinating rarely explored primary documents and fresh approaches in the study of consumer culture Cinotto argues that Italian immigrants created a distinctive culture of food as a symbolic response to the needs of immigrant life from the struggle for personal and group identity to the pursuit of social and economic power Adding a transnational dimension to the study of Italian American foodways Cinotto recasts Italian American food culture as an American invention resonant with traces of tradition
