J. Mander,Stamatoula Panagakou,2016-09-26 This book reassesses the origins development and legacy of the philosophy of the British idealists demonstrating the enduring relevance of their thought for the modern discipline This body of work coheres around the single unifying theme of the self a concept of central importance to the idealist school Particular attention is also paid to the many connections that hold between various philosophers and branches of philosophy as well as creating a set of continuously running dialogues between contributing authors Readers will discover a comprehensive stimulating and sharply focused panorama of British idealist thought which will be useful to philosophers historians of ideas political and social theorists psychologists and policy makers who wish to gain a deeper understanding of the citizen as a self **The Self in Transition** Dante Cicchetti,Marjorie Beeghly,1990-11-08 Twenty four distinguished behavioral scientists present recent research on the self during the pivotal period of transition from infancy to childhood and place it in historical perspective citing earlier work of such figures as William James George Herbert Mead Sigmund Freud and Heinz Kohut Contributors are Elizabeth Bates Marjorie Beeghly Barbara Belmont Leslie Bottomly Helen K Buchsbaum George Butterworth Vicki Carlson Dante Cicchetti James P Connell Robert N Emde Jerome Kagan Robert A LeVine Andrew N Meltzoff Editha Nottelmann Sandra Pipp Marian Radke Yarrow Catherine E Snow L Alan Sroufe Gerald Stechler Sheree L Toth Malcolm Watson and Dennie Palmer Wolf **Psychoanalytic Theory** Anthony Elliott,2017-09-16 Influential exciting and often controversial psychoanalytic theory has had a major impact in the humanities and social sciences In a new edition of this classic book Anthony Elliott masterfully introduces the reader to psychoanalytic theory Discusses leading psychoanalytic theorists from Freud to Lacan Klein to Kristeva i ek to Laplanche Examines the political and cultural dimensions of psychoanalytic studies from feminism to postmodernism and Contains new material on Lacanian and post Lacanian theory the post Kleinian psychoanalyst Wilfred Bion psychoanalytic feminism and deconstructive psychoanalysis Written by one of the world s leading social theorists this engaging and influential text is essential reading for anyone wanting to learn about psychoanalytic theory and its cultural importance in our lives New to this Edition New and fully revised edition with new material on theories **Francis Bacon and the Loss of Self** Ernst van Alphen,1993 Since his death in April 12 Francis Bacon has been acclaimed as one of the very greatest of modern painters Yet most analyses of Bacon actually neutralize his work by discussing it as an existential

expression and as the horrifying communication of an isolated individual which simply transfers the pain in the paintings back to Bacon himself This study is the first attempt to account for the pain of the viewer It is also most challengingly an explanation of what Bacon's art tells us about ourselves as individuals For during this very personal investigation the author comes to realize that the effect of Bacon's work is founded upon the way that each of us carves our identity ourselves from the inchoate evidence of our senses using the conventions of representation as tools It is in his warping of these conventions of the senses rather than in the superficial distortion of his images that Bacon most radically confronts our art and ourselves as individuals
