

## What is Post structuralism ?

Post structuralism is the name for a movement in philosophy that began in the early of 1960s and end of 1970s and also displaced structuralism. It is closely related to Post-Modernism It remains an influence not only in philosophy, but also in a wider set of subjects, including literature, politics, art, cultural criticisms, history and sociology.

In the Post-Structuralist approach to textual analysis, the reader replaces the author as the primary subject of inquiry and, without a central fixation on the author, Post-Structuralists examine other sources for meaning (e.g., readers, cultural norms, other literature, etc).
