Ethnographic Discourse of the Other Panchanan Mohanty, Ramesh C. Malik, Eswarappa Kasi, 2008 This book primarily tries to bring out the analogy between the conceptual and methodological discourses on the theme of the other The term Other here refers to the oppressed sections of the society It may be dalits women indigenous or ethnic communities Since we are living in a multicultural and multilingual society we should share our views with others on a platform where issues of the marginalized people are addressed by different scholars following different methods and techniques Though there are various policies and plans for the welfare of the downtrodden hardly any change can be seen at the micro level structure of the society There are studies which highlighted the problems and ethos of the downtrodden sections but a majority of those studies neglected the marginalized groups Hence we felt the need to highlight the issues and concerns of these groups in a wider context and started thinking on the theme Ethnographic Discourse of the Other Conceptual and Methodological Issues This volume attempts to discuss and theorize the pragmatic concepts and issues related to the marginalized groups in contemporary societies in South Asia This book is interdisciplinary in nature and will be useful to scholars and students of Anthropology Sociology Linguistics Social Work Culture Studies Gender Studies and Philosophy It is widely applicable to all sections of the oppressed socially economically culturally academically politically and other wise **Subject Guide to Books in Print** ,1997
