Triumph Cars In America:

Triumph Cars in America Michael Cook,2001 As with most postwar British sports cars a large portion of the Triumphs produced in the 1950s and 1960s were exported to the United States As a result the demands of U S customers essentially defined what a Triumph sports car would be This automotive history tells the colorful tale of Triumph s successes in the United States how the marque was established its dealer network promotional and marketing efforts racing ventures that starred legendary drivers like Stirling Moss and Bob Tullius profiles of U S exclusive models and finally Triumph s sad defeat under the umbrella of British Leyland A huge collection of black and white photography much of it archival and not seen in print for decades imparts a sense of this British marque s jolly good run in the United States *British Sports Cars in America 1946-1981* Jonathan A. Stein,J. Stein,1993 British Sports Cars In America 1946 1981 Jonathan A Stein The intriguing tale of the meteoric rise and fall of British marques in America following WWII Marques the likes of Triumph MG and Austin Healey as well as the lesser known Ginetta Elva and Berkeley are thoroughly explored Filled with beautiful and rare color photographs **Automobile Manufacturers Worldwide Registry** ,2000-09-15 This one of a kind reference work provides essential data on some 10 700 manufacturers of automobiles beginning with the earliest vehicle that might be so termed Frenchman Nicolas Cugnot s steam carriage in 1770 and covering all nations in which automobiles have been built 67 in all Not an encyclopedia or collection of histories this is instead a very complete registry providing essential facts about the manufacturers complete name location years active type s of vehicles built and other basic data Compiled during more than 30 years of research this reference even lists companies that produced just one car Any builder of passenger carrying vehicles on at least two but no more than eight wheels of any design either mass produced or built as one off specials experimental cars prototypes or kit cars is included Builders of internal combustion steam and electric powered vehicles are all covered companies that built only trucks buses racing cars or motorcycles are not included From A A A to Zzipper and Argentina to Yugoslavia this is an astonishingly comprehensive resource [The New Domestic Automakers in the United States and Canada](#) A.J. Jacobs,2015-12-16 Over the past forty years state provincial and local governments in the United States and Canada have provided foreign automakers with approximately 4 80 billion in incentives in order to lure light vehicles assembly plants to their areas This has included tax abatements infrastructure construction land giveaways job training programs and other subsidies As of early 2015 ten foreign vehicle makers operated 20 light vehicles in developed North America Despite the fact that all ten of these automakers have pursued a similar pattern first exporting vehicles into the United States and Canada before launching vehicle plants in developed North America each has followed its own specific historical development path and has created its own unique growth trajectory This book provides a unique historical and qualitative review of these ten vehicle makers from their early beginnings to their export entry into the United States and or Canada through early 2015 In addition it chronicles the histories of more than a dozen former automakers and potential

future foreign light motor vehicle assembly plants in the United States and Canada This includes the first foreign automaker to build its cars in the United States De Dion Bouton of France in July 1900 the early 20th Century endeavors of Fiat Mercedes and Rolls Royce and the present day hopes of Chinese and Indian automakers In the process the text also provides an assessment of the top competing states and sites for any future plants the possible incentives packages governments may offer to attract such facilities and an estimated incentive value for each automaker Overall the goal of this book is to expand the knowledge of policymakers at all tiers of government in the United States and Canada and to help them take a more holistic look at the pros and cons of attracting Automobile Manufacturing FDI It is hoped that this will enable them to make more informed decisions when pursuing a new foreign motor vehicle assembly plant Its findings should also prove informative to urban and regional planning political science sociology economics labor and international development scholars and students in North America and worldwide
