## **Truth In Philosophy:**

**What Philosophers Should Know About Truth** Fred Stoutland,2019-05-06 Fred Stoutland was a major figure in the philosophy of action and philosophy of language This collection brings together essays on truth language action and mind and thus provides an important summary of many key themes in Stoutland s own work as well as offering valuable perspectives on key issues in contemporary philosophy

**Truth and Its Nature (if Any)** J. Peregrin,2013-03-14 The question how to turn the principles implicitly governing the concept of truth into an explicit definition or explication of the concept hence coalesced with the question how to get a finite grip on the infinity of T sentences Tarski s famous and ingenious move was to introduce a new concept satisfaction which could be on the one hand recursively defined and which on the other hand straightforwardly yielded an explication of truth A surprising by product of Tarski s effort to bring truth under control was the breathtaking finding that truth is in a precisely defined sense ineffable that no non trivial language can contain a truth predicate which would be adequate for the very 4 language This implied that truth and consequently semantic concepts to which truth appeared to be reducible proved itself to be strangely language dependent we can have a concept of truth in L for any language L but we cannot have a concept of truth applicable to every language In a sense this means as Quine 1969 p 68 put it that truth belongs to transcendental metaphysics and Tarski s scientific investigations seem to lead us back towards a surprising proximity of some more traditional philosophical views on truth

3 TARSKI S THEORY AS A PARADIGM So far Tarski himself Subsequent philosophers then had to find out what his considerations of the concept of truth really mean and what are their consequences and this now seems to be an almost interminable task
