Maj-Britt Mosegaard Hansen,2008 This book elucidates the nature of the semantics pragmatics distinction in both synchrony and diachrony and proposes a definition of semantics and pragmatics that is orthogonal to the question of truth conditionality A corollary aim of the study is to propose an account of how and why erstwhile pragmatically determined elements of meaning may in the course of time become semanticized      Monumental cares Mechtild Widrich,2023-01-31 Monumental

cares rethinks monument debates site specificity and art activism in light of problems that strike us as monumental or overwhelming such as war migration and the climate crisis The book shows how artists address these issues from Chicago and Berlin to Oslo Bucharest and Hong Kong in media ranging from marble and glass to postcards graffiti and re enactment A multidirectional theory of site does justice to specific places but also to how far away audiences see them What emerges is a new ethics of care in public art combined with a passionate engagement with reality harking back to the realist aesthetics of the nineteenth century Familiar questions can be answered anew what to do with monuments particularly when they are the products of terror and require removal modification or recontextualisation And can art address the monumental concerns of our present      **The Examination of Hydrocarbon Oils and of Saponifiable Fats and Waxes** David Holde,1922
