## **Understanding Population Change:**

*Understanding Population Change* Charles B. Nam, 1994-01-01      *Understanding Neighbourhood Dynamics* Maarten van Ham, David Manley, Nick Bailey, Ludi Simpson, Duncan Maclennan, 2012-09-27 This rare interdisciplinary combination of research into neighbourhood dynamics and effects attempts to unravel the complex relationship between disadvantaged neighbourhoods and the life outcomes of the residents who live therein It seeks to overcome the notorious difficulties of establishing an empirical causal relationship between living in a disadvantaged area and the poorer health and well being often found in such places There remains a widespread belief in neighbourhood effects that living in a poorer area can adversely affect residents life chances These chapters caution that neighbourhood effects cannot be fully understood without a profound understanding of the changes to and selective mobility into and out of these areas Featuring fresh research findings from a number of countries and data sources including from the UK Australia Sweden and the USA this book offers fresh perspectives on neighbourhood choice and dynamics as well as new material for social scientists geographers and policy makers alike It enriches neighbourhood effects research with insights from the closely related but currently largely separate literature on neighbourhood dynamics      **21st Century Geography: A Reference Handbook** Joseph P.

Stoltman, 2011-10-20 Via approximately 80 entries or mini chapters the SAGE 21st Century Reference Series volumes on geography will highlight the most important topics issues questions and debates any student obtaining a degree in this field ought to have mastered for effectiveness in the 21st century The purpose is to provide undergraduate majors with an authoritative reference source that will serve their research needs with more detailed information than encyclopedia entries but not so much jargon detail or density as a journal article or a research handbook chapter Features Benefits Curricular driven to provide students with initial footholds on topics of interest in writing research term papers in preparing for GREs in consulting to determine directions to take in pursuing a senior thesis graduate degree etc Comprehensive to offer full coverage of major subthemes and subfields within the discipline of geography including regional geography physical geography global change human and cultural geography economic geography and locational analysis political geography geospatial technology cartography spatial thinking research methodology geographical education and more Uniform in chapter structure to make it easy for students to locate key information with a more or less common chapter format of Introduction Theory Methods Applications Comparison Future Directions Summary Bibliography Suggestions for Further Reading and Cross References Available in print and electronic formats to provide students with convenient easy access
