Planetary health approaches to understand and control vector-borne diseases Kimberley Fornace, Jan Conn, Maria Anice Mureb, Leonardo Suveges Moreira Chaves, James Logan, 2023-12-21 Mosquitoes transmit many of the pathogens that cause zoonotic diseases from wildlife and livestock to people with devastating consequences for public health The factors affecting the ecology and evolution of the transmission dynamics of these mosquito borne pathogens can be revealed using multidisciplinary research approaches This 7th volume of the ECVD series focuses on the ecological factors that determine the transmission dynamics of mosquito borne pathogens naturally circulating between animals of different taxa and their importance for human health The authors revise the current knowledge on the pathogens that affect wildlife including those maintained in captivity as well as the use of cutting edge techniques for the identification of potential vectors of these pathogens In addition this volume explores the role of factors related to global change including changes in landscape use deforestation and urbanization as major drivers of the distribution of mosquito vectors and the dynamics of pathogen transmission Finally updated information on the approaches used to identify and control mosquito borne diseases is presented with a particular focus on those affecting humans In summary this book provides an updated review of the different mosquito borne pathogens affecting animals and their public health relevance

Understanding Mexicans and Americans Rogelio Diaz-Guerrero, Lorand B. Szalay, 2013-11-11 The Communication Lexicon is a new concept it is a new source of information in the field of language and area studies Its focus is on people s way of thinking their frame of reference their characteristic outlook on life Compared to the more traditional area studies our main focus is not on history or religion or geography not on tangible material realities of existence in a particular country but rather on people s shared subjective views of those real ities which are dominant in their minds The focus of the analysis is essentially psychological it is centered on perceptions and motivations which influence people s choices and behavior Compared to individual psychology the information represented by this volume is psycho cultural in that it is centered on the shared perceptions and motivations which people with the same language backgrounds and experiences develop together into a shared cultural view or subjective representation of their universe The attention psycho cultural factors are receiving these days follows from the growing realization that their influences are powerful and yet they

occur without people's awareness Based on extensive empirical data produced through an analytic technique of in-depth assessment the Communication Lexicon presents the culturally characteristic system of meanings which members of a particular cultural community develop in construing their world At the level of specifics the lexicon describes how selected themes such as family society work and entertainment are perceived and understood by members of three cultures Mexicans Colombians and U S
